

AN INTRODUCTION TO RAISING THE BURIED DEAD

THE GREAT YAHWEH SPEAKS THIS FULL DETAIL:

You saw his face in a movie, and you truly wonder how the Great Yahweh will have you go and raise him from the buried dead way. You are truly learning a new work way that will bring you into presentation in ninety days.

Let's look at the way a person stays in the earth while in the dead buried way. The earth holds the person's outer shell. The person's soul and spirit are joined together, where they do not separate. Upon death, your spirit and your soul will either go into the way of Heaven or will take a temporary way into the Hell.

Here is where it must be clearly stated: Hell is not purgatory. There is no such place in the death process. Hell contains the devil and the angels who are serving him. Hell has grown in great detail to hold those who have chosen eternity without the Giver of life, the Great Way King Jesus.

Hell will have every person who can make a decision concerning where they will live, in spiritual details. Those who have chosen Satan's way will be placed in Hell. Some actually choose Hell, thinking that they will have a part in ruling with Satan. What a great deception they truly are drinking. Many people think that life is too hard to bear; so, they go out and end their own lives, hoping they will find peace. But there will not be any peace without knowing the Prince of Peace, Jesus.

Hell will hold all those who have chosen eternal separation from God by not yielding within and making the Great King Jesus their Savior, Lord, God within. There is no eternal life without Life King Jesus. Power is holding death in those who have died, whether in Heaven or in Hell, it truly doesn't matter.

The way is given to show that you can raise up buried dead people. And that is what this major detail shall be concerning. Power to raise the buried dead—it will take power

that can create the human body, as a piece of clay would be remade into a new shape. God would literally have to break the death curse over the one who is buried and would have to join their spirit, soul, and body as one unit. There would have to be a way to make that person take on a material that would be able to leave a detail of a buried location and have them travel through matter that flesh would not be able to go through in this natural way. There would have to be a true shifting in matter.

How can angels look as a human, where the human cannot tell they entertain angels? Write that Scripture right here.

Don't forget to show hospitality to strangers, for some who have done this have entertained angels without realizing it!

—Hebrews 13:2 NLT

THE GREAT YAHWEH CONTINUES:

I want the Christian who doubts a literal resurrection to have a deep look at the way an angel must take on the characteristics of flesh, to appear a human way. You have to truly note that demons can also materialize and mate with humans. Demons can also torment humans with many different methods for appearing in fleshly ways.

The Church has to wake up. They're out there with pickets, trying to attack the Government instead of dealing with unseen details, while Satan has his strings over major Christian outreaches, giving them ways to be in greater ways of appearing holy. If they would stop pretending Satan has no power and start walking in authority, I could funnel power. If there was unity, and if the whole Church showed the love that I spoke of, there would be such a major power surging as never seen before.

Can human flesh be remade? I can transfer matter from one location to another. How did I do that with Phillip in the Book of Acts (Acts 8:39)? What was he traveling through? The air. Would making a body travel through the earth be any different if I looked at air as a different material to travel through? Would there truly be any

difference? There would not be any difference. I would still have to change matter—from moving in one point and moving it into another plan that would have a different setting. I would have to change the detail.

What about the bread and the fish that appeared from Heaven (John 6:1-13)? Where did that bread come from? That bread changed in material. That fish moved in shifting ways, to be a material that would be consumed in natural ways. Where did the widow get her oil (1 Kings 17:8-16)? Was there a store filled with oil, or would it come down continually from Heaven, with a shifting plan to be enjoyed on Earth?

How can, even with these few examples, people doubt that shifting a body from a coffin onto the ground above would be hard for the Great God who has spoken all of these things into eternity? Could there be anything truly hard for My plan, in changing it?

The way has a way to change the prophet's view of Me. I could make it rain diamonds, but that would require no training on your part. I could lay one million dollars on your large dining table that seats eight, but would you have learned all of those important steps in how to manage that wealth? That's why I could not grant those wishes.

I am not a plaything, nor will I answer certain prayers based on hoping to avoid the needed training for what would be the real work. You are now in the real work, with real money and real power. With this power—that will push the full will forward, to prepare the world for My return.

How will I prepare them? When Lazarus rose from the dead, didn't that make it believable that I actually could be raised from the dead? Yes, it did, for there was no doubt he was dead for those days, in natural ways. But the way seemed so hard, even with that proof, and the people could not fathom that the One who raised him would be able to be raised Himself.

I called out for the dead man Lazarus to be raised from the dead. The grave was opened, and I called him by name and made him live again, in fleshly ways. See, I am the Resurrection and the Life. No one can truly have eternal life without Me, King Jesus. With this tester, they would truly see that the dead could be raised.

Now let's look at the Church this day. I want to prepare the whole world for My resurrection detail. The first resurrection will be truly different than the second. Doesn't resurrection mean "to raise," in general dealings, in reference to the will spoken? Doesn't resurrection have to do with raising dead persons? Yes.

So, who will be given the daunting, impossible task of finding all who have died? No government, no church building, no civil group will have a way to find every buried person. I know this, for no human knows where Moses is, and that would not be fair if he could not be raised up with his true plan. I am in a way to give some proof as to the raising of the buried dead, even while the world is in the current state. Find Me a person who will believe Me.

I want to raise Paul from the buried dead way. We can give you many practice sessions, with raising a lot of dead people from above the earth. But We want to give you that detail, to walk in this level of drinking in Us. I want you to be ready for the hardest first three years of the work beginning Mother's Day 2021. Your teachings will have such a drawing that you will be in famous ways quickly.

But there cannot be just words. The will has to be with great power, demonstrating God's Kingdom on Earth. Have your shadow cause major healings. It will be with great pleasure to give you this covenant work way. I am now showing you the way of training scheduled. Do not fear the way that they will speak against you. Where can you fit in? Nowhere.
