

ACCESS YAHWEH?

“See where the real problem is? They think they can “access” the sayings of Yahweh based on their little positions given by their favorite media or church leader. There is no way into the wisdom from Yahweh if the human clicks his heels, claps a few times, and says their own declaring ways. Do you see what the cancer is in that charismatic movement? They think they can tell Me what to do. They think that by calling themselves prophets and apostles, and even pastors do this, Yahweh will bend to their sayings. Yahweh gives the one who is yielded to be in any office the enablement to stand in the office placement. Man cannot determine who will be in an office way. This cancer in My Church has to be dealt with. And I will send out real prophets who will speak out about how Yahweh is against these persons who claim they can activate Me, My power, or tell Me how to govern the Church.”
