

EVIL WITHIN THE VINEYARD

Cave Training, Kodiak, Alaska

STAGE ONE / ENTRY FIVE

How do I keep loving others when they display Satan's nature?

The answer is straightforward: Turn and drink Yahweh's plan. Turn to Yahweh and ask Him how to behave in that moment. Implementing the action in a manner pleasing to Yahweh requires faith and trusting Yahweh to bring plans forward into natural ways of engagement.

Today was a different way of learning about the unseen. My vision has shifted, where I see the significant impact that words would have on a person. The Great Holy Spirit revealed a powerful detail: your words will produce death or life, but not in a creative way. I knew of this Scripture, but I did not fully understand it.

The time in this evening's training began with the Great Holy Spirit allowing me to drink in His wisdom so I could embrace what He would reveal. I had a vision in my spirit that enabled me to see the plan moving against me. The house walls in the room where I was sleeping that day had what seemed to resemble vines from a vineyard, and they were spiritually in the walls themselves. Remember, this is a spiritual view of spirit engagement.

These were not typical vines or any natural material, but spiritual vines, producing evil fruit against me. The spiritual vineyard was growing in the walls of my natural dwelling. The vineyard was living a plan that would kill me if it wasn't for the blood of King Jesus yielding a seal in the room in the spirit realm. The blood of King Jesus kept the vineyard of evil from pushing through to get to me.

What was the detail in the vineyard? It was all evil words spoken against me by people who moved to speak against the way of the Great King Jesus. These were words spoken that produced evil results in a vineyard, which made its way into the home where we were meeting, in this detail to teach me how a person's words have a strong, surging life-or-death effect in their movement. The blood of King Jesus is a great shield; it is all I need to put up a force of protection against the demonic spirits moving against me.

There would be many who would not drink the insight given to me by the Great King Jesus, thinking that words could not have such power to produce an effect like death. We **cannot** create life or death or speak words to bring anything into existence, for humans are not given "God traits" that create.

How could words push this, where they are spoken to bring an action plan in the natural? Demonic influences will push that plan on humans who crave bringing others harm. Eternal life is freely given to those who drink it through the Great King Jesus, for He is Life. How much time is spent speaking words of death, hate, and gossip against people, whether we know them or not?

Now, the Great Holy Spirit also showed me what would take place in the unseen when words that bring death are spoken: People were deeply wounded or killed due to words formed into actions **carried forward by demons**. I saw spiritual knives going into people. Spiritual darts and arrows were going into people. People can also be wounded in battle by attacks from those on the same team.

At the same time, in the vision, I saw people in the church pews labeled "gossip." People gossiped about their church leaders. Bad fruit from the vineyard wrapped around church pastors or leaders due to many speaking rumors, hate, and gossip against their leadership. Verbal abuse suffocates ministers due to the words spoken against them. These words of abuse hinder freedom.

As mentioned, speaking death or life does not relate to a human having Yahweh's creative nature. Only Yahweh can create. These sayings refer to principles under Yahweh's spiritual Kingdom order. Speaking certain words can build up or tear down a person. Then, depending on how you work with a spirit being, various influences would lead to different ways of experiencing pain in others or encourage a person in the faith.

But what is the plan to stop this way of death? How do you walk in freedom from this way of demon influence? Surely, you do not think that a demon would not play a role, for their nature would be to speak a will to take a person away from the life-giving detail that stems from Yahweh. Spirits will move to influence you to say words of hate and gossip, creating avenues for damage.

Truly walking in actions to bring life would first take walking in the Spirit. Life can only come from Yahweh. Yahweh's Word is a living, moving detail that protects against the enemy. When you speak, you can counteract the words of death with pure words of life from the Word of Yahweh. Know this and drink Yahweh's will to give to others, enabling them to walk in freedom through Christ's words. Counteract hateful words and exchange them with Scripture. Speak Yahweh's Word, in context, to encourage.

You will drink in whatever way you move to lower your guard. I saw people taking off their spiritual armor for various reasons. Some would fall asleep, no longer looking to keep safe from the devil's scheme. But when you spiritually fall asleep and take your focus off the Great King Jesus, an attack could bring a word against you, aiming to destroy you or bring distraction. Don't let your armor sit on the floor. Put the armor of God on each day. With Yahweh's armor, you can stay protected from the enemy's blows when he moves to do his evil way.

Truly see the importance of speaking those details that bring healing power from the Great King. Let's go deeper into the next lesson. Stay close to the Great King and His will for your soul, mind, and all parts within. Until next time.
