

# DEMON OF SELF-PITY

Journal Entry: Before Mother's Day 2021

## **SEERSGATE SPOKE THIS TO HERSELF:**

- No one likes my work.
- I will never make a living with my work.
- He does not want me to have it.
- He takes away what I love and makes me work a regular boing living.
- I am tired of living this way.

## **YAHWEH RESPONDS:**

You are a servant with low self-esteem partly because Yahweh made you gain great weight and also due to Yahweh holding back the work and keeping you begging for financial crumbs. Within a self-pitying way, there is no real looking within to say that "I can do it!" Self-pity always puts the blame of why they fail on others, the culture, politics, or lifestyle shifts.

This Self-Pity demon will make a person stay in a poverty mentality. Not feeling good about yourself has various roots. Some are okay if there is a need to repent. And others pity themselves because they never feel worthy. And self-pity influences will make others feel bad for giving their self-confidence to others.

He flaunts his little salary, trying to look more important than he really is. Posting of videos of fake success, trying to make it look as if they are wealthy. Fake. What the world really needs is honest ways. Makeup and filters are okay if giving what they really are in perception. When We give you video messages, take a drink in how I want real ways. It will bring healing into others who need an approachable prophet.

I will let you take in great wealth to build a Kingdom work to bring in a great soul harvest. I will rejuvenate you outwardly to build a natural way of presentation that appeals to the young and the old. Break free. I give a real plan. We approve of you, and We will give you great wealth to take care of his way—to pay him for what he spent with you and giving into your work way.

I break this demon of Self-Pity from your way. Be My chosen servant who will bring in the era known as the Age of the Antichrist. I give you this work not because you are worthy, perfect, and fully moving with Me. I give you My great power because you love Me and willingly long to put Me first.

You love Me greatly, and you give Me a way to work in your spirit—a really difficult way others will not bend to do. Begin. So much awaits you. They aren't looking for perfection. They want real ways.
