

# **WOMEN JUDGES: WILL A NEW WAY LEAD?**

## **YAHWEH SAYS IT:**

Imagine living in the days of Paul and the other apostles. Most people would not like that very much. But what would hinder growth today? The Church structure has changed and is not standing in the same structure as what took place all those years past. What can stay is the practical aspects. But what is obviously new in this placement of the Church is the inability to keep women in the same way as in Paul's day. What I will have to do is bring a new way that will bring unity into the Church ways. And that will require an active office placement of an Apostle greater in governing than Paul.
