

THE OFFICE IS CALLED PROPHET

August 28, 2024

2:21 p.m. Houston

YAHWEH:

She said that something is wrong with you, that women who call themselves a prophet are mad. Quote her.

SEERSGATE:

“And for you girls that just insist on being called a prophet, I’m telling you, you are sick. Something is wrong with you, girl.”

YAHWEH:

We have to address it, “the elephant in the room,” as they would say, pertaining to an uncomfortable situation. “I really want to be proven right” is the way of most of those who speak on these social media ways. But there is no plan for you to be proven than to say you will stand with Me in what I gave you. I made it very plain in understanding in various documents. Yahweh will not yield out a different way with a male versus a female pertaining to giving out the prophet traits.

Here is where the people need to understand how variations in rewriting Scripture and giving a gender separation will not make Me yield to that same placing. I do not carry two different streams in power settings to give the male a certain level while a female would carry another. Both would drink from the Ultimate Source in the office placement and yield out Yahweh’s power surging, relaying what they hear from Yahweh to the hearer.

Why is it this way of confusion? Scripture says the wording “prophetess” to separate the office placing to give a gender yielding, but where does the way in office traits stem from? Me, Yahweh. If they would see. Can’t they comprehend how humans would want to put a separation with how Yahweh yields out His office placement? There would be an understanding that there is no difference. No difference in where the office traits stem from would make it a clear way that those who stated a woman with a prophetess title only gave it to bring a plan to lower one gender over the other.

But Yahweh isn’t separated within His way. Yahweh instills traits into the spirit of the person, upgrades their hearing to take in His training, turning their way into the way of presentation, one enabled to complete Yahweh’s great way in service. The prophet office placement is the only office stated in Scripture of women occupying in the Old Work Way. Others were mentioned to carry prophetic placements. Some carried the gift of prophecy, and another was stated to set herself up as the label of a prophetess in the Book of Revelation. But there are no sayings of women being a Pastor by title basis. If it were given, would the woman be referred to as a Pastor-ess to separate the office by gender?

See, there is a misunderstanding. I, Yahweh, will not look at the gender of who I deal with and give a placement of lower ways to a woman as if the Prophet Office is geared to carry different placements that cater to that way. I look at the purpose of having a person give the word of the LORD.

The old way is done with. The Old Covenant is not in effect. You can come into the Kingdom of Yahweh by grace through faith in the Great Way, King Jesus. Grace makes you be enabled to be near Me. Prophets of old had the Spirit of the Living God placed upon them. I didn’t separate the surging and made it different for the male versus the female. The office is the Prophet Office. The title of the office placement is prophet. I do not separate the office by gender labels. Yahweh says it.
