YAHWEH SAYS A COVENANT WAY WITH A WORLD-LEVEL PROPHET:

What would happen if I launched the work for real? No trial. What would I demand of your way? Can you tell Me? Can you see how you have no satisfaction from eating junk? What is the way you are given to walk in? Can you see it?

The work of Rain is the way of building up. The work will never stop. The work will keep on growing. The power of Yahweh will bring all of the work forward into the natural way. What is the major platform that has to be built? Your God the Deliverer—that must be clearly revealed.

Your hunger has turned to the longing of My power. That's where I want the way to be presented, with power. What is a sign of great power? A drawing of a natural audience. It's your God drawing the millions of people to the woman who has a pleasing appearance and can make the crowd take a look at her way and give them the presence of Yahweh in a level that is transferrable by look.

That is a covenant, where Yahweh gives His power through photographs and turns the looker into a way of a glory filling through the eye plan. **It is powerful**, in bold words. You have a powerful God who wants to bring you into real work levels of surging within. You have a real God who cares about the level of work that must come forward with power. You have a God who wants a covenant with Susanna to bring all of His promises, active, into real living moments for others to drink.

Servant, the way of great power must have a leading way. You should be able to just go and have that person look at your eyes and have demons leave. That's the level of power. It's infiltrating the eye gates. See it. It's the opposite of Satan's snare of trapping victims

by polluting their eye gates. God wants to covenant with you and bring deliverance to the captives through photos of a seer.

You have to turn into the way of presentation. Never have you been this eager to turn into the way needed to complete this work. It's your look that must turn, and at the same time, My power will come and take over your whole way. Eight years. A covenant vow. You have My help. I have taken away the junk food craving to have a servant who will have a full yielding to doing My great will.

Are you ready to come under a covenant law with Me? "Yes," is your heart's cry. I am the God of Abraham, of Isaac, and of Jacob/Israel. I am the God of My world prophet Seersgate, who has yielded her whole way to serving My Kingdom in the fullest place.

Susanna, you are My chosen servant who will bring deliverance into the camp. You are chosen to wage war on all of Satan's natural brides. You are chosen to build a bridge with the races. You are truly a deliverer, and power from the powerful blue stream will now start to come out of your spirit and take over the full way.

The powerful Yahweh is making a promise to back you and give you the power that goes along with your purpose. I have unlimited power. I AM Who I AM. I love you, but now I cannot show the soft part of My love. Now I must push you into the full one-year plan that will strip away the old former way. Power, it's now granted. I covenant with you. And I will take care of your whole way.
