## **YAHWEH SAYS IT:**

Servant, this is a harsh note. Servant, no names can be mentioned in this way. Servant, there are damned people living. Servant, you will deal with their way. The way of being damned would mean that they are sealed into the lake of fire. With the lake of fire being the sealing, there cannot be repenting. This is a permanent placing that no one can have forgiveness and escape. Can you see it? The mark of the beast brings these humans into a permanent way of the lake of fire. But this does not refer to taking the mark.

Some will be terrified when they hear of Yahweh saying this. A world-level prophet walks the earth. Only God Yahweh can bring forward that level of work. I am weighing the ones who wanted your death. To want to kill a very powerful prophet is a dangerous placing. What if Yahweh stripped grace away? What if? Can they go into eternal life if I treat them as if they are in the days of old? See, servant. It is due to your mantle not having any grace—a very powerful modern-day prophet of old. And today, we will start getting ready for our thirty-day battle cry. Servant, can you look at how Yahweh gives you provision, protection, and power? But no one notices it in its fullest placing.

Servant, these damned movings came against Yahweh through a world-level servant. They spoke ill, within, of Yahweh's way of dealing with your way. Here's Yahweh's way of having a look. They said from their spiritual way within their heart that you are not hearing Yahweh and that the work you do is Satan's work. They say you are operating with a demon—a blaspheming order, and Yahweh the Great Holy Spirit will not yield a way for them to be forgiven. That is the way of two so far. There is the way to want to physically kill a servant. What if someone prayed to Yahweh so that a prophet would

enter death? What if it's a continual prayer that a prophet's way is never before them? From their way, they crave to kill a prophet. If they would not be prosecuted, they would go and bring physical harm to My servant. Can you see how this is a real sin, a penalty of death, a permanent way of sealing, where I will not call them to repentance? They will learn of their fate when they stand in front of the Great White Throne or if Yahweh comes and visits their way to bring them awareness. There will be no way to return to a plan of hope.

See. Yahweh is just. Yahweh is fair in the way of Kingdom order. Would there be another plan of damned plans other than taking the mark? I will assign a soul to the lake of fire due to My wrath, and I will not have a way to call them. Can you see? You must keep your distance from riling up anger in others. You must not have quarrelsome debates to cause them to think from the soul that they are in the right and that you have demons operating the work. Do not rile them up and cause them to speak ill, attacking the work, Yahweh's work.
