

CBN IS IN YAHWEH'S VIEW

YAHWEH SAYS:

Seersgate, they say you have no influence. They do not know you.

Seersgate, do not ever speak of what We will say. Even if this note is included in the private meetings, do not tell anyone who all Yahweh deals with. Servant, don't take any interviews with famous persons for clout or recognition. Meet famous people privately.

Why would Gordon have a plan that would give a public view? Why would I call him by name? He is the man who listened to what I said when you worked there and gave him My word. You were poor in spirit and presentation, yet he stood there within and let you deal with him. He is even more famous than the YouTube folks who secretly view your work but pretend they are not looking. They can continue to pretend there is no internet when We push you with a full activation as a world-level servant.

We want to work with Gordon and give him an influx in the way of his platform. You must fast to get ready for what is ahead. I do not look at how many unsaved people say they are standing with your way to weigh your work as legitimate. I look at what you are doing with the Gospel. I look at if you will work without pay. And you did. Decades worth of back pay owed. We did punish you for moving against Me. And it was a very long ten years without showing you the clear way.

Servant, We will now let you drink. Servant, take her off of your way of following. Seersgate, when the time is given, the surging will lead. How they treated your way will stand. And if they couldn't be near your way when you were without a title, that is where they will stay: distant. Distant. Distant. Distant.
