

LET'S BEGIN

SEERSGATE SAYS:

What is it like to leave your body? How would I know? Only would I know this because I have left my body. More than once, this took place. On one occasion, I could not recall what was happening around my body. All I could perceive was what was taking way in the unseen realm, invisible to the natural. What did it look like? Imagine natural seeing but in another realm of living and moving.

I had a vision very long ago, where I could see a particular part of Heaven. I walked through the fields in a rapid walking. It was not like the natural, where you literally would have to take a step after another to get to the final location. In the spirit realm, I was standing far away from a lonely tree in a very ripe field.

As if within a few quick seconds, I came near to this same tree. A Man was sitting underneath. This vision was a portion of Heaven I never expected to read about from any other person's visit. Most would say how they had a near-death experience, and how they would see gates to a city, or angels, or some say they have seen the torment in Hell.

Who was this Person waiting to meet with me? He was waiting there, smiling, connecting with me, and drawing me closer just from His presence. His eyes were warm, and His smile I could never find here on Earth. Why is that? I met; well, I came close to seeing Him as if face-to-face. I believe I was not out of my body based on how I was with my dear friend, who was sitting with me, praying.

I had this extraordinary vision of getting close to the One who holds My heart. His hair came to His shoulders. His gown was white. His features were darker than portrayed in church paintings. God is just as Jewish as would be expected, just as if an Israelite, in

the natural. I stood close to God, yet I could not drink its fullest place. I could only drink just a small taste of His nature.

THE GREAT GOD I AM SAYS:

Have you ever heard of a trance? Do you know what a trance would be like? Have you ever thought that there could be more than one way to enter the third Heaven — actual Heaven — the boundaries of God’s Kingdom? Why is Satan getting credit for what I have done with My servants? Recall servants who have stood still for long periods of time under the power of God. Explain how there is a way that humans can actually be laid limp under a trance, not able to move, based on power from God.

Satan is faking this “falling out in the Spirit” by giving many people fake ways to explore this. Servant, people are faking falling out so they can look as if they have a close relationship with Me. Many call them “courtesy falls,” just in case a person has heard of this way. Why is this important in sharing this detail? You were in a trance when with your friend.

This friend is always with Me now that she is no longer. Your way misses her. She will remember who you are when you are here. Natural death will not take away personal ways of knowing. This is why Hell takes on a way to bring a pain within based on knowing that it is too late for any redemption after death, in the natural.

The trance that you were in — it froze your body. The natural realm can be frozen. Just as God walked on water and froze it in place, changing the structure, you can also walk in a trance, where you would not know what is taking way around you. Visions will not always be in a trance-like way, but in the case that you speak of, you actually went to Heaven. Share your second trip to Heaven.

SEERSGATE SAYS:

I was at a church service. The woman pastor gave an invitation to taste of God in a different way, with chariots from the unseen realm. I stood there, hoping for a true power-filled way in the unseen way. I was touched by the minister and fell limp on the carpet. I saw, right away, a chariot, gold, right in front of me. I took a step on to this chariot, and it took me into Heaven. I saw my house in Heaven. I saw the child I lost in a miscarriage. I could literally taste the fullness of my surroundings in Heaven, where God's throne is.

There, in Heaven, I ate fruit from a tree near the clearest water ever seen. I saw my guardian angel, and he allowed my hand to touch his wing and his robe. My house was built with precious stones in the walls. It stands on the side of a grand mountain that's across the valley from my visual view of the light from God's place of sitting on the throne.

I could see God's Kingdom—a partial view with clear perception—full of greenery, life, and power. I have a pet lion in Heaven. I actually was able to sit next to him and place my hand through his mane. I could literally feel every detail as if it was natural. But it all took place with me out of my body. I learned that distance in the spirit realm is not the same gauge as natural distance. Heaven is very far. You would never make it if you took a spaceship and traveled. There would be hopelessness in trying to get there with natural materials.

But with the spirit realm, God doesn't move in natural time to get anywhere in spirit dealings. His measurement is not the same as taking on those same experiences while in your fleshly body. It would explain why those who go to Heaven say it felt as if it were a quick stop, yet they were actually gone for hours. Time is not ruling over natural dealings when in the Spirit. God shifts all within that spirit sphere of influence and would bring a leading way with another dimension. That dimension is the spiritual realm.

Here is my prayer today:

You are truly able to shift matter. You, Great King, are able to bring a ruling over the natural realm that would make the sphere influenced take on Kingdom attributes. You, Great King, will show us how You performed the miracle of bread and fish multiplication, using natural resources of this day; and You will teach us how to walk in the spirit more often, where we yield to the Kingdom of Heaven in this natural realm. One has to lead over the other. Dear God, let Your Kingdom lead over the will in the natural that is displeasing to You. Break off the old way, and bring in a new power way, such as never seen before. Great King, Your Word is truth, and I believe every detail that You spoke within. Let it be a second-nature act with Your servants, where we can move in Kingdom authority under the Head, King Jesus. Amen. Amen. Amen.
