

# THE OLD WAY IS DONE

February 9, 2022

3:46 a.m.

## **YAHWEH GIVES IT:**

Your God is so powerful, yet I cannot bend to a human will. Servant, listen carefully. Hear it. No one has ever had this surging that you carry. And that is why there were so many ways to say it, so they will all be prepared. Can you now see it? This world prophet sphere isn't a little governing detail. Can you imagine Elijah or Elisha operating on a world plane with just what they hold in the office? It would have crushed them. You have so many heads up, so I would have warned you on the danger of mishandling the level I give. You will work under a world surging at will.

I had to bring you under full submissive dealings to bring you into a synced rhythm with Me. If We were not able to make you submit without real world ways, it would have required a death sentence. See it; out in the real-world, there is no "try again" due to how I trained you. Because I trained you as a prophet of old, I punish swiftly and with harsh dealings. What does it mean? The surgings for prophets came into the servant and out within the work given.

You can see how I dealt with Solomon, David, Samson, and with others where they say the Spirit is with them. That is a real surging that would enable their way to give Yahweh's will. Please see; I retracted the surging. They did not have it within them as a storage container. Remember how I had you birth forward those containers while in the spiritual cave? That is so you would have reserves. It's all real.

But your surging will not be retracted; it will be ingrained. That's why I would have to slay you for continual disobedience or rebellion. And it will start on your wedding

anniversary. A prophet of old is not governed by church culture. No prophet in a real way of order will rebel against their God. It's going to be ingrained. That is the next way.

I have to seal your fate into eternity. I will have to take your will and make you stay with Me. See it with those who take the enemy's surging with a mark of the beast. You are fully aware that it will give a spiritual surging that dooms Satan with them into the lake of fire. Satan will make nations submit to him, and these nations contain many who will take Satan's puppet's seal. That is what the mark of the beast is. And with Satan's group being sealed into eternity, Yahweh will also have a way to seal certain Kingdom workers so they will carry His will into completion.

I gave the prophet John his surging from the womb to ensure he would have the courage to go out into the wilderness and bring forward an order that prepared the way for the Messiah; you are no different. Satan begged you to stay away from his favorite haven, yet Yahweh keeps giving a plan to go there. I would have you go for a quick three years over moving back to the Norfolk area due to how a certain person is scheduled to be raised from the dead, and it would be beneficial to have him close to their way.

I can seal you into eternity, where only natural death will take you out of this work. The sealing would be the needed guarantee that you wouldn't turn from Me. Before I gave a sealing, you would be able to turn to Satan just with having free will. You will still have free will, but the craving to serve Me will lead in powerful works.

Nothing will tear you from your Kingdom work. I will begin your sealing on your anniversary. And Christmas of 2023 will begin the world way in a fully sealed way. I need to give you a new way in stages; this is that way. We cannot stay here with the ending of the lease. I will push you before the great and the small by telling them of you when they sleep and when they sit awake.

You will not eat meat for the next 30 to 40 days—only vegetables and water with supplements. The sealing will lead and will turn you. And with this sealing, the surging

will begin to infiltrate. And there is no turning back from that; it's a permanent takeover. The old way is through with. And each day, Yahweh will take you into deep changes. The window of the former way is closed. I will make you forget them.
