#### **SEERSGATE IS GIVING THE STORY INTRODUCTION:**

This is going to be an amazing sharing. Who would say that there are certain angels to bring a guiding over lands and territories? What I say is true, and I say it as Yahweh is my witness.

I will hide nothing.

I have dealt with various rejection levels for my notes on spirit engagement. I recall a day many years ago when a woman told me that Yahweh called me to be a prophet. And I was so excited that I went and told a leader at a church in South Florida about the revelation. The first words from the person were a disagreement with what was given. Then, within that short time, I no longer felt safe to tell any leader what I dealt with.

This experience is shared so that there would be awareness. We must go to Yahweh to gauge whether a person or a message is from His way. Yet I have learned that Yahweh will hold a prophet in a spiritual cave, and no one will have the discernment to gauge the prophet's spirit. And this is where we must go to Yahweh and drink Him, His wisdom.

Think about the pleasures of Yahweh and His grace that He shares on the just and the unjust. Yahweh gives healing to those who have faith and those who do not acknowledge Him. What goes on within the human to keep you running takes a brilliant and powerful

Creator. Yahweh gives a way to live. We cannot pay Him back for our daily breath. We are to worship and celebrate being in His Kingdom.

These notes are a brief introduction. I know that most Christians have an understanding that one angel is guarding their way. Ministering spirits are with the ones headed to being in the presence of Yahweh for eternity. Do you know that Yahweh will send an angel or a host to rescue His servant? Do you know that even with a relative who has turned away, Yahweh will instruct the angel on their behalf? Yahweh will view the one who is entering the Kingdom in the future planning.

I will say that when I lived in sin, Yahweh gave me visions and dreams of purpose and His coming. And His angels were near. I know that Yahweh aided my way when I entered dangerous places. Yahweh still called for me to turn from sin when I was a sinner.

I did not engage heavily with spirits until my cave way in Yahweh's wilderness season. The cave training of ten years made me dabble in test battle warfare to be prepared to take on real ways of battles. When Yahweh opened my spiritual ears, I had to deal confidently with angels and demons. There was never any leeway to conjure a demon or begin talking with angels on my initiative. Yahweh will always lead all spiritual engagement. That will keep me safe. But first, I had to learn Yahweh's way of dealing with a novice.

In the beginning, there were a few angels. Yahweh would let me feel the air for their spiritual weight using discernment. Yahweh gave a full seeing of a healing angel who will walk with me in healing work. The way angels speak is very different. All angels do not sound the same. Gabriel, for example, carries a deep booming weight in his vocals that is scary and would be overwhelming if there isn't discernment. Yahweh placed a filter on spirits to have me learn them and not be in fear concerning their way.

When a person takes an office position, angels surround you. The guarding angels in this gathering are collectively called an Angelic Guard. Here is a key definition of Angelic Guard:

####

### **—ANGELIC GUARD—**

What is an Angelic Guard?

Prophets in the office will have what can be viewed as a natural secret service but receive protection in the spirit realm. Three to four angels minimum are given to an office worker to protect the message as the greater focus than the person carrying the message. Let's say you are a world leader. An entourage of skilled guardsmen or secret service agents will cover you and keep you safe from those who aim to hurt you. And this natural "army" of protectors will guard your every move and stay near you each moment of the day.

The Angelic Guard operates this way, giving office protection. Let's say you are assigned a city sphere to cover as a watchman. Yahweh will ensure that the particular angels with you bring forth His will in a specific time frame based on the message, purpose, and plan you carry within your office mantle. They are there to push the prophet's licenses and obey what Yahweh gives forward through the covenant arrangement with the prophet/servant.

The angels in the Angelic Guard have the needed skills to protect that prophet's work sphere and deal with warfare engagement. Every follower of King Jesus has a ministering angel. Hebrews 1:14 NASB says: "Are they

not all ministering spirits, sent out to provide service for the sake of those who will inherit salvation?"

And when we think we are all alone, there is a spiritual way of protection that is rightfully ours. And in Yahweh's book were written all the days ordained for us (Psalm 139:16), but we can do what we want (free will). Yet, we blame Yahweh for what Satan gives into others.

Evil is in the world because of sin; the sinful nature is still here. But there is still free will, where we can choose to love God or sin and break covenant with the God of all, who determines our days. Daily, the fleshly nature needs to be refused, where we walk in the Spirit and not in the flesh (Galatians 5:16).

Every real prophet takes on an entourage of angels to give the needed protection and backing from the Throne Room. The angels will only obey the will of Yahweh (Psalm 103:20-21). The angels will not bend to human will.

Here are some points to review:

- Yahweh speaks to the prophet and gives a message. Sometimes, Yahweh will give the message to an angel (instead of first to the prophet), and the angel delivers what Yahweh says to the prophet or the hearer.
- If the message needs to be delivered after the prophet hears it, the prophet then speaks the will of Yahweh to the hearer.
- The angels sent to bring the will forward will move into position and will follow Kingdom order.

No one can activate angels. They are not built with an “off” switch, waiting for someone to turn them back on to go to work. By prayer and supplication, asking for a new engagement must first go through our Mediator, King Jesus. Let King Jesus know of your need for a particular way of protection, and He will take a look at the purpose for which you seek them. Call upon the Lord in your time of need.

I can recall the first time Yahweh allowed me to have direct conversations with the angels in my Angelic Guard. They would start telling me Yahweh’s plans. I did not seek them out; I waited for Yahweh’s will. These angels who spoke did not cater to my fleshly will. They were not there to bring me a platform. They are here with me to bring forward the will of Master King Jesus, to make sure the will of Yahweh is protected. I have seen the angels that stand at my desk in my home office—one on each side. They dress in gray metal attire. I cannot see the white robes that adorn others I have seen. These angels guarding the prophet have a heavy metal covering geared for warfare.

If you think that angels are here to bring you wealth and fortune, take a new look at why we have them with us. Some are with us to bring comfort. Some heal and help us in delivering ways. They are always with us and will perform Yahweh’s Word, obeying His voice. When you do not know what to pray, bring a prayer of supplication. Start with the Lord’s prayer (Matthew 6:7-15). Let us humble ourselves before Yahweh and know that He can see all and is very capable of bringing His will to pass.

This entry is for a bit of reflection on the Angelic Guard. Angels do a lot more than what was shared here. Let us respect what Yahweh gives and give thanks for the protection He provides daily. And we pray that there is

a continual yielding to the nature of Yahweh, His Great Spirit, so that we stay under Kingdom order. Amen.

## **SEERSGATE CONTINUES:**

I have walked in office traits since 2010, even though I have dealt with training as a novice many years earlier. But what is the difference? Yahweh takes a novice through stages of yielding and spiritual stripping to see if they will come under Kingdom order. Once I surrendered and said I would work with Yahweh and let Him take me to another training plan, He granted specific ways of engagement that I could not fake.

When that person said I was a prophet, I was already hearing from guest speakers who came to the church I attended, stating there was a call on my life. But Yahweh would not let them see a calling greater than a “normal” calling of a preacher. I received counsel that said I would walk in prophetic work, but Yahweh would not reveal anything else to that speaker. And in the meantime, I would hear Yahweh speak, but not at a paragraph level as right now. I mostly received messages that built up others and notes of encouragement so I would not break away.

I did not see examples of prophets of old in this current day. It seemed as if people would note the God of love but never note God the Judge and righteous King. And then, during the wilderness season, Yahweh began to take me into a way of training as if in the days of prophets of old. I learned to see Yahweh in a new way. I had to learn how the spirit realm operated and understand how I could not overrule Yahweh with my plan while still hoping He would back me.

When the shapes of angels and demons would take on a more dimensional way, I had to learn to shift, meaning, I needed to embrace that way of training. There were times I felt

I was living like two separate people—one way was by hiding the level of spirit engagement I dealt with. Talking with some Christians would be like walking on eggshells. I could not tell them of the meetings dealing with Satan, visits from Satan's workers threatening me, or Yahweh revealing what the people close to me were truly like.

I had to master discipline and fasting. I had to say only what Yahweh wanted to have shared. When a person would continually go against a direct order and want me to follow them in doing something Yahweh said not to do, I would have to cut meetings with their way. When humans would try to put me on a pedestal, Yahweh would remove that post or cut ties with that person.

People want to do whatever they think is good and still think that Yahweh should give them power. Many are not really prophets; they have occultic ways of gaining information.

I have no fame or fortune, but I have Yahweh. And when He gives the way to build, there will be no holding Him from doing that power way.

The angels are not with me to give me special treatment. The angels are here to protect the message that Yahweh places in my mantle to give into the earth. So, when I tell you that Yahweh gives me forty angels in my angelic guard, would you view that as prideful ways, or would you understand that Yahweh is protecting what He has given to come forward within His timing? Along with the forty angels, I have a host of angels in the nearby heavens to keep a territorial watch from demons entering from other territories.

Take a look at what happened when I flew from my home base of Houston.

## **YAHWEH IS SPEAKING HIS WILL:**

What happened, servant? Can Yahweh say what plan happened? I have all the ways of understanding, and I will push forward something major.

People like it when you bring attention to what they are dealing with. They want to be put on a pedestal. They want the crowds to say that they do a great thing. But what will a person gain by having the whole world look at their way? What can be gained from posting on social media? What is the root will for sharing your work with these people with hardened hearts who fear their leaders labeling them as fake and unstable as you are dealt with? What is there to gain? Is it now the new way of pushing your own agenda, or will you say what I give? I know you will say what I give, but I will not have you bend to the comments and the fake ways of engagement.

Find Me a person who will say they are with you and be able to take in the hard way you deal with. Can they stand with you? Most likely, they will not. So, why feel the need to share anything?
