

FEELING TORN

June 24, 2022

9:09 p.m.

YAHWEH HAS A POWER PLAN:

Seersgate, you feel that it's hopeless. You feel torn about being with Me. Take a look at Yahweh in this season. What are those plans that carry greater worth than how I push this work? Nothing is of a greater importance than Yahweh's work. What is the longing way? Power in a tangible work power way.

See it; you hate the name "prophet." It has a terrible connotation based on how others misuse that platform. What did I promise? You will begin to work out in the real world, and power must come forward to show you are not like the others.

Your enemies look at your work. They think that some of your work isn't from Yahweh. Are you tired? What would make you happy? To be thin, with your income, and living a purposed way. You are tired of people going behind your back, asking removed people why you say what you are saying. You are tired of people talking about you behind your back. You are tired of fake ways, of people spying on you for others. You have no real friends. Friendships are not in your way.

What do you want? To have a regular way. You have been defeated with the waiting. You do not have any energy to stay with Yahweh. Do you even want to finish the fourth year? Is that a plan that you feel Yahweh is leading you into? We promised it would get finished, and then we did not pursue it. We will have to wait on the full release until you clean up the loose ends.

What is the way We want you to move forward in? Can you build this level of work just with a waiting? The sex book is an easy way. *The Altar* is a reading of what has already been given. What is holding you back in the former way? I keep changing My will.

What is Yahweh's will? I said finish school. But then I do not let you take in that power way. I do not help you. I gave you a dream. I said to let go of school and close a business. What is a power way moving? If Yahweh really wants you to do it, it wouldn't be pushed by your way.

Please see. Yahweh is giving a promise based on a covenant but continually gives a new plan overruling that covenant. This is a great lesson. Now, we will leave that schooling, and you will take in no further drinking from their surging. There is an attachment in the spirit realm that is a hindering way. I will leave your power release, for I did do that purpose but held it to take care of loose ends. These seventy days are the way of putting all ways under order.

Think of it as someone who is made queen, but then there is a coronation. Your coronation is this Christmas. And that's when I will let you be active in all work, not with any holdings, no hindering ways. That makes real sense. I call you as a real world-level prophet, but your house of Seersgate will be made active by Christmas in its standing. The queen was still a real queen, but the coronation made it a standing order. She had that time frame to prepare for tasks. Your tasks are major world-level engagements.

Now you see it. I end the transition period and say that you now are a prophet with a world sphere of influence. But I will have you drink a final way of action for the new way this Christmas. We will send you out that day with a coronation way. The office is given to set things in order, but the pushing out of all plans will begin on Christmas. I will not hold the work. From that day on, one month. See. Seven months total, just as I said.

I want to break the lease. We need to make our income so that we can do that plan and be in a single-family home by coronation. I will not let you do this work alone. I promise

you that I will take care of it and bring you income and take you through these first few days to take in a new way in presentation. Amen.

Have a new power look. Yahweh is with you. Take care of those details. That's why I did not say a lot on that way. This is your work and your way of release. And the ten-year work office mantle training will begin on Christmas.
