

GABRIEL'S VOICE

The first time I heard Gabriel's voice scared me. Then Scripture came to life. I thought of all those who met angels and were told not to be afraid. For me, I did not have a look at Gabriel. Only I was able to hear his voice. Gabriel—the angel mentioned in Scripture—came when I was in training in learning to know of angels that would speak with me. For that plan, when Gabriel spoke, his voice sounded like a booming, loud, deep-based sound, as if to truly see him would have me hiding.

It sounded like a rumbling pounding, deep bass, a voice in a low key on an instrument played. The bass in Gabriel's voice was audible, not like a gentle whisper as when Yahweh says His plan by His Spirit. His voice filled up the whole room.

God told me that Gabriel would deliver specific messages that have a critical way, with a plan to shift all time. Gabriel has spoken with filters over the sound of his voice to keep me from coming to fear. As time progresses, I will hear him say the will of Yahweh in his full nature so that I would not be afraid to work with him throughout this powerful work.
