

THE PRACTICAL WAY TO RAISE THE DEAD

SUSANNA SAYS:

This download has been near me since I was a young child. Many times, I would visit the graves of many I did not know, hoping to see if I would raise someone. Not knowing that plan was in my spirit until the other day made it clear to my whole way, it was placed in me to follow wholeheartedly in this major work with God.

I cannot say you can move in having a formula to work on others, but I can say that God will not change; and with King Jesus, you will be victorious over death in the power of God.

What does Scripture say concerning death?

And death and hell were cast into the lake of fire. This is the second death.

—Revelation 20:14 KJV

All humans have to come to walk in the Kingdom way through knowing King Jesus by accepting His free gift of salvation. His precious blood—it cleanses all in their spirit so they would be able to become a Kingdom citizen with a new birth into God's family, adopted into a spiritual plan with Jehovah, through reconciliation.

People of God: learn of this detail. How can a power come and take all out of their graves, to have them rise, to live a new plan? Who will go and dig up all these graves in this whole world and label those who are Christians, so they will be able to be raised to life? Doesn't God have to do His plan in a different way?

How will the rapture take way? How will it be different than a common resurrection such as with the friend of King Jesus, called into a plan to live, yet still in a plan to live

here, not to be moving into sinless ways in immortal details? There are significant differences in both details—in a rapture instance and with a resurrection detail.

God can raise any dead person without the help of any human praying for that power to raise them. But God uses humans to speak His will into the earth because He gave humans the earth to govern over, with Kingdom power and authority.

THE GREAT WAY KING JESUS SAYS:

They wonder what will have to happen to raise a dead person and conquer death in this earthly time segment, for a dead person would still return to other ways in death once they have lived for that return. Death still conquers. This is why the dead are in the grave. But God's power is greater than death and is able to work a new plan that would release death over that person for a moment. A moment refers to years, living as a human in a fallen body, still.

Death has to be released. God has conquered death over all eternity, just as you know He has conquered sin as well, but the human still has to deal with sin while a part of the earthly way. As with sin, death will be fully released when the second resurrection is done, where Death and Hell will take a plan and enter a full defeat into eternity in the lake of fire.

This is why hope in living again in eternal ways can only be given in King Jesus. This is only due to My will, based on bringing full reconciliation between God and mankind as a whole—to all who will ask for forgiveness and will take My freely given gift to live in My presence for all eternity, never to be separated from My plan.

You truly must have a deep drink in My will: All things will be made new. There will be no sin, and there will be a will to have no more death, ever. You will be a new way when raised in a new body. The first resurrection shall make all in Christ take up that new way, free from sin and free from death, able to live in true freedom from Satan's

way, fully sealed into eternity. The second resurrection will only have those who live in sin, even in the Hell. You will hear Me speak greater details.

Who can release death? Only the power of the Great Holy Spirit. Only one power source can fill a body with a surging plan in a resurrected life. Now, concerning raising a dead person, whether in their home or in the cemetery, it will take power, backing up the command, to raise them. It will take creative miracles flowing into that dead way. It will take a true power surging that will release the spirit, known as Death, from that person. It will take My power, releasing the dead from Heaven or from the Hell so they could be rejoined to their earthly tent. It will take a will in the Judge's seat to say that they can return to Earth and live again before final judgment is set.

I would have to approve it. I will have to say it is the plan to let them live in earthly ways. That plan would have to be based on Jehovah's full will, for each person released from the grave will truly cause a major ripple in time and would shift details into full eternity. This should make sense.

It is not a light plan to raise any. The act is easy, but how it affects many will be major. And that plan must be a will that would give Jehovah's will a leading plan in all. That's it, for you can continue, servant.

SUSANNA SAYS:

Great King, it is with great pleasure to learn of the plan that will be made plain, even as time passes by.
