

MATERIALIZATION: I CAN RAISE THE DEAD

Pushed Forward in the Year 2017

YAHWEH GIVES A MAJOR EXPLANATION:

I have already pushed you into the full release season. Let's tell you what that really means in this work that you have been given. When We told you to go to the local cemetery, you did not see any need to go again.

Within your spirit, there was no longing to go again, but you went there anyway. But what looked different? The words that I told you to speak in each training of raising the buried dead. You told those four corpses under the earth to rise up in the name of the Great Way King Jesus.

You have spoken these words in the old way of training, but this time, something was very different: You could see the spirits travel through the dirt, the part before coming above the earth. You saw the spirits shoot up and were unable to push through the dirt. How could they leave the Hell and go through the dirt, yet to only see the part where they were buried? They were near their very corpse but couldn't merge with their physical body. Why? Raising the buried dead requires a joining in the flesh.

The Great Yahweh would have to enter a covenant with the person praying to see a dead person raised. How many humans have been raised this way, through dirt? Would it be easy? Very easy to the Great Way. But you noticed that they were able to leave their place of current domain. I did not have the fullest release placed within your spirit till after. I did not want to have to honor this covenant, with raising a people group that were not scheduled.

If you prayed this prayer at this moment of the full release, We would have to greatly punish you for dealing with the unseen realm with careless actions. I would have to place a looking at the vow that was given, where you can invoke Me. At this very

moment, you are fully released, but earlier this day, it wasn't given yet—not in the fullest placement. Servant, you cannot speak casual ways in any detail. You must not bend in your words spoken. We do not want to remove you from this post that is here this day.

The Virginia state is given for a short season further. Let him move up north to deal with his work dealing. Servant, there is no reversal of the changes that you will drink in deep, powerful ways. Servant, if you went into the streets, I would back you up and give you this full way in presentation. Let Me present you first with these photos. Let Me say that you are chosen to walk in this great work. Let Me tell them about you.

You will keep changing till you are fully the new power moving. Servant, it's done. The full release is given, and there is no filtered way of seeing. The activation of your materialization training is still scheduled for Mother's Day 2021. It is all done.

The full release is done. Have the way made clear for your Great God I AM. Make way and give them the will of Yahweh. You are now ready to have the fasting plan lead over all. Start fasting when We show you. Ninety-day shifting into full-time ministry.

SUSANNA SAYS:

Lord, I am truly not sure of the whole detail. I have seen a vision of what they had in view while shooting through the dirt. It was as if the dirt shifted to show light from the surface. It was a view from under the surface but showing light above. What would they do with waiting to be joined? The rapture will be a quick power way, not a pause.

YAHWEH GIVES A MAJOR EXPLANATION:

Let Me tell you from that place there, how the person will be raised. There will be a will to bring them into living ways.

There is a decree, a plan to bring true life into that person. It will lead you; it will be constant, this great power. You would speak to Me in prayer, asking Me to raise that buried dead way. I will look at our covenant to weigh if We can bring forth power into that way. After I have taken the vow to review it, then there would be a major shift in the time segment, where I would give a power shift within the temporary power holding of Heaven or Hell.

Imagine the person being raised from the dead that was dead for a while. I would have a new plan overrule the current death phase and have it rewritten. I am in covenant with your way. We will stand with you. And with the standing, there is a level of covenant that will be honored. The covenant makes it possible.

See, God is always powerful. It's just, to funnel that great power requires a plan that is led by the Great Holy Spirit. When you pray to Me to raise the buried dead, We would weigh it and honor the vow. The body of the dead is still in the earth, in the coffin, waiting to be raised to life. I hear the prayer and would actually release the spirit from the Heaven or the Hell to be reunited with the body.

There would have to be great power just to even bring a person back from the dead even if not buried yet. It requires a power that can change a spirit's matter and make it travel through other forms of matter.

There would have to be a temporary defeat over the Death spirit so that that dead person would not have a plan that would seem that it's not from God. I would have to come into covenant and say that there is agreement with the prayer spoken. It's not how the wording comes out of the person who is praying. It's the covenant given that is very important.

Once I give My permission to have that person's spirit come back, I would also have to have the merging be done with their fleshly body. What does that say? There are levels of raising. There are colds that a person can get that vary in levels of intensity. There

are levels of work that I have for a member but are never the work levels for each of My servants.

Everyone has their own outlet of work given. Even from the command We gave to go out and preach the Gospel—that can be done in levels of backing and power. I have to merge the person with their body to have the plan done in fullest dealings. And I will not merge any spirit with a body without weighing the covenant and taking up a plan that would bring a shift into the time segment. I would have to shift time and break the Death spirit's hold upon that person.

You have that level to raise the buried dead only through the covenant that has been placed within your calling. That is part of the work that you have been given. And that outlet comes through My fully releasing your spirit.

We have to agree with that vow and honor Our covenant with you, but before you went and prayed at the cemetery, there was no full release given yet. And yet I had you pray My plan, to take a look at what level of power flows within you. It was given to see it, how you could raise dead people. But with that experience, you prayed to have a buried dead person raised. I did not have a covenant in place that would merge a spirit and the body, which made it where those in the vision that you were able to have a view of were only able to come up to the surface to where they are buried but come no further. It's the covenant connected to the servant.

Now, if you went and prayed that I would raise the buried dead, you would be a scared way, for you would surely see a real raising. With this full release into work plans, there is a pushing from your God that will not ever waver.

And now it should make sense. A full clarity is given as to why all Christians cannot raise the dead. You can. And We proved it to you. Do not test it. You would be greatly punished for walking in great power and abusing the covenant for your own fleshly gain.

Let Me make it clear when those—Paul Walker, Myles Munroe, and Prince—will be raised. Let Me make it clear, as promised. Now let's take on street ministry. There will be great practice sessions of raising the dead so that I will have a vessel who has no fear of dealing with death.

I showed you a vision of how you will walk up to a body in a casket at a funeral and will say a command in the name of your Great Way, and that dead person in that dead level will come back. I would still have to merge them.

Isn't that the same as raising up the buried dead? The only difference is that there is traveling through dirt to return to the body buried, to then make the whole body take on a matter that can go through dirt. There will be shiftings with human matter that will cause them all to see it, that the human body is clay and transferable with a matter shift. I am with you. The materialization training starts on Mother's Day 2021.
