The Steps of Healing from a Demon Bite

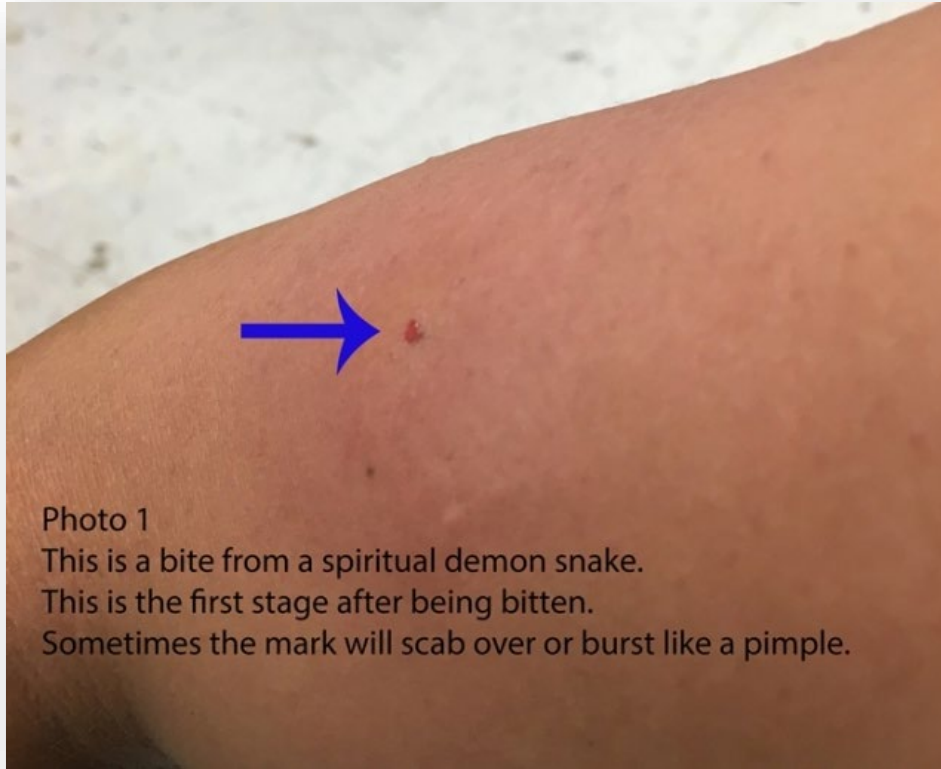

Photo 1

This is a bite from a spiritual demon snake.

This is the first stage after being bitten.

Sometimes the mark will scab over or burst like a pimple.

Photo 2

It starts off small and then grows out like a rash.

The mark spreads like poison. It is red, painful, and swollen.

There's throbbing pain, even without physical contact.

Photo 3
The arrow points to the origin mark.
Now the poison spreads out under the skin.

Photo 4

A bite mark fully healed. Now a scar remains.
It has been months since this final spiritual assault.
