

# **A VISIT TO A LOCAL CEMETERY**

## **SEERSGATE:**

I went to a local cemetery not too long ago. There were many previous visits to that same site, yet this visit was quite different.

## **GOD I AM:**

Share, servant, how God gave you a major position in God's government. What did I show you? How you are now an officer.

## **SEERSGATE:**

I walked through the local cemetery, and within just a few steps across the lawn, Satan's territorial demon spoke. That Death spirit was territorial over that cemetery because the dead are held in the death phase by the Death spirit. I walked in the Death spirit's territory and dealt with an angry demon, wanting me to leave its territory.

I once was not a threat, but there was a shift in how I was treated. In past visits, I could walk alongside a demon and not feel as if I were being hunted, but this time, something was quite out of the norm.

## **GOD I AM:**

I want to explain it through Our great wisdom. Oh, servant. Prophet, you are now Our prophet for a work that is greater than any plan you would ever handle. How can I call you Our prophet? I made you a prophet. I gave you full upgrades within your spirit, so you could handle the weight of assignments that involve shifting government structures.

I sent you to that local cemetery, so you could see how Our prophets are treated when they are now able to bring major destruction into Satan's territory. Before, you were in novice training ways, but now, the bullets are real. Now you are a true threat. You are released fully into your office as a level under worldwide influence.

You went into Satan's portal to Hell, unannounced, not welcomed, under My arsenal of angelic protection, expecting the same treatment as if you were a student under novice training. The warfare is taking on major changes.

Now you are under presentation order, where I want the world to have a look at Our servant so that they can have Our plan without fault. What fault? What does that mean? You have to hear Us clearly. That would mean that you truly will have to hear Me clearly as if you stand in front of Me, speaking with Me face-to-face.

You have Abraham Lincoln's mantle to bring a way into the nation that would give the people full emancipation. No leader living has this calling to heal the races and this segregation that is eating up the Church and filling it up with hatred. Should I also state that We will give many healings and delivering wills within My servant?

What will give you a full proof that you speak any true message? We would have to make you change within, where you take a glow under your skin. We will have to change your spirit even further so that you can become the full way of presentation. Glowing is not a detail that can be faked. No human living today has a calling that will cause their full spirit to glow.

What will cause a person's spirit to move in glowing? The presence, power, anointing of God—those traits are great within other major leaders, but what will cause a person to move in glowing? **A direct encounter.** What would make it safe, a direct encounter? How would our hearts join as one, where your full spirit would drink that level of filling? A full surrender—that's the base to a full encounter that will not take your life. That's why

at each stage, I require a major fasting so that you can come under submission within your full way.

The rejection of the full world will not be hard when under a fasting that causes your flesh to come under submission. I mentioned this because soon, there will be a true glowing that can be fully revealed. Now it's time for Our servant to give an introduction.
