

# **I SAW KING JESUS IN A CHURCH BUILDING**

## **SEERSGATE SAYS IT:**

Years ago, I went to a church detail and saw King Jesus in spirit. It was an amazing vision where He came into the church building, walked up to the front, and stood near a spiritual cross. This cross was not natural but was in the spirit realm. No one could see this detail taking place unless they could see with spiritual vision through the power of the Great Holy Spirit.

It was a church visit. I came to make room to share what the Great King was seeing. While standing there in this church, the Way, King Jesus, walked right by me. I could see into the unseen realm to view this. Angels stood along the aisle and bowed low when He passed their standing. There was a clear view of large holes in His hands. I could see it in the spirit. He had on a flowing detail and stood the height of a natural man, but He did not look as others would think with their perception.

King Jesus came to give His approval and full power backing. While the Great Way was making His plan come forward into the natural, He showed me a deeper understanding of His nature. The Great King is always gentle to some, yet others think that King Jesus will allow everyone to enter Heaven—whether they believe in His power way to forgive sins or reject Him. But we must understand He is a just Judge and a Holy God.

How can this God, named Jesus, look the way that He did that day? Doesn't anyone know that God has different dealings within His nature, where He moves in being other presentations we may not expect Him to be? Let me explain: When in this church service, King Jesus came to the way to give His backing of power to help this church take on the fullness of their calling. He turned to face me, and His way of looking was not what I expected. His eyes carried fire in them, with a constant flow that came in major force from His eye sockets. His face was the shape of others that walk as humans, but where His eyes were to be, fire came out with force.

King Jesus is filled with fire. I saw Him, with power flowing and fire shooting out of His eyes. How can we look at King Jesus and say He is not greater than anything we battle with? I have a new perception, how about you? Are you now ready to live in Kingdom power and great fire? I am ready. Come and join me in this learning way of walking with King Jesus, giving out a spiritual fire to the fields of people that we are given to win for the Great Way.
