

A PRAYER FOR DISCERNING PEOPLE AND THEIR WORK PLANS

YAHWEH IS STILL SPEAKING:

If I do not warn the people, I am not a *fair* and *just* Yahweh. I want leaders in place. Everyone is not equipped the same, which means that some are not going to be ministers in office placements pertaining to moving under Kingdom protocol. There needs to be those geared to take on heavy spiritual weight. These little church gatherings have to live with a form of protocol, where the leader over that gathering is not an itinerant but local and stable with that gathering, working to build up a core of Christian phases in their growth.

Pastors and Elders govern the local church. Why? They cover. And they should be office pastors of the male gender who govern, with women still operating in leadership ways, as Yahweh would give it. Prophetic words can stem from a male or female. Let the women state My plan.

I have governing leaders that must have certain discernment and power fillings that will walk in a governing plan that isn't able to bend to a seeker-sensitive living. I know that a great deal of Christians are unable to hear Me. When will the local churches quit stealing the wealth of the congregation with these fake gimmicks? No human can make people learn to hear Me. I share a very important baseline in the document "How People Hear Yahweh." Let's place it in the entries with this power will.

And let Yahweh end the dealing with that damned woman. Let her read the written Word and call the name she hears. Let her post fake happy ways, but there is no life from Yahweh. Let her gain many thousands more of fake ways in social outlets, but there is no audience with Yahweh. What should it profit...? Write that out for the people.

For what does it profit a man if he gains the whole world and loses or forfeits himself?

—Luke 9:25 ESV

She is gaining the whole world, yet there is an absence of Kingdom living. “Touch not Yahweh’s anointed” is not about calling out false doctrine. Rather, having a purpose to physically hurt or strip away (or usurp) My office servant is a grave placement.

Now, what will we—you and Yahweh—want the people to take within and ponder? Take to Yahweh the particular disagreement. Tell Yahweh that you do not want to place within your heart an evil way but that you want to know His purpose and plan in the matter.

Here is a form of prayer to say to Yahweh, asking for His help in discerning others:

Yahweh, this person has traits about them that cloud how I think about them. I don't know if I should believe them. I do not know if I can stand with what they claim to say in Your powerful name. I ask for the wisdom to see with spiritual discernment to perceive what method to bring forward and rightly discern what they give in their doctrine and talk. Yahweh, this person has not sinned in that plan carried out if a brother sins against me but claims another core doctrine or change in church underlining structure may come forward. Guide me in standing with You. Firmly will I stand with Your written and spoken Word, throwing away what is not from You and gathering within whatever plan brings glory to Your Great name. Thank You, Yahweh, for Your wisdom. I yield how I want events to go and trust You when dealing with others who claim to speak in Your name.
