

A GENTLE HUMMING

SUSANNA SAYS:

I recall a day when I felt as if nothing was ever going to take place in this full work. I waited in hopes of having something that would prove to me that I wasn't making this up. I trained, studied, and waited, yet it truly seemed as if it was for nothing, in natural planning details.

How can anyone truly stay this long in waiting? But it was not a record-time to wait for any detail compared to many prophets of old. While I lay on my bed, I felt a hopeless weight, as if nothing would ever come to pass. Then Yahweh talked to my spirit and made it clear that He truly was with me. I felt a certain surge in my body, and my spirit just filled up with Him. The humming shook me on the inside. I could feel it in me, moving in rhythmic patterns. God told me to just wait for Him. I do not know why He will not let me fully feel this power. Why would He not have it move within me, along with the same plan as this training way in Virginia?

THE GREAT WAY SAYS:

Servant, I will take you deeper into the way you will stay after fully being changed in a deep way. You will not live an earthly way as others. Do not settle.
