

## **EXPLAIN THIS WAY OF HEARING**

October 21, 2025

10:23 p.m.

### **YAHWEH IS LEADING:**

The way you hear Me is not given to the Church way. The body is not expected to converse with Yahweh in this way. We speak with you as if sitting next to you. But there is great confusion about how these people say you can hear Yahweh. They use the word "audible" when dealing with anyone who claims to hear a word from Yahweh. But can you state how We speak with your way so they can understand? Break it down into baby sayings.

### **SEERSGATE IS LEADING:**

I can hear Yahweh, but when Yahweh talks, He doesn't sound like a thought coming from my head. I hear Him over any natural background sound. Even if I were at a concert, Yahweh would not have to yell to be heard. His voice remains stable, even with the natural sounds I hear around me. This way of hearing Yahweh refers to the word-for-word conversation form He uses with me. But Yahweh is not standing there, physically, speaking as if using a natural voice, raising His voice so I can hear Him over natural sounds.

His voice does not sound like my voice. The Member of the Godhead dealing with me determines how Yahweh sounds. Also, Yahweh may put filters on my hearing, which would filter the way Their voices sound.

There were a few rare moments when Yahweh sounded as if He materialized and became flesh, standing near me, yet invisible, yet His voice would fill the room. And that way of

engagement would be what I would refer to as hearing Yahweh “audibly” —Yahweh sounding as if He walks around in natural matter, taking on flesh, standing physically with me, filling up the space with His voice—a surrounding way of hearing Him. That way to hear Him take up a room with His voice is audible—and it is rare. But to hear Yahweh give a word-for-word general engagement in conversing with me is not a surrounding way, but more like a friend who sits right next to me—an intimate way of conversation, and not a loud, booming audible sound.

### **YAHWEH IS LEADING:**

There are no guessing plans when I talk.

So much has changed since enabling your way to hear Yahweh. There is no need to play some worship song to have Me converse; I just speak to you. But why, servant? There must not be any doubt that you hear Yahweh when Yahweh has you go to the nation’s leader, stating a very grave word that will bring all to take a look at your work. Servant, no one can cancel My plan. All is now placed in order. The thirty-first, the surging oozes out.
