

LAKWOOD HOUSTON: A VISIT FROM YAHWEH

May 21, 2023

11 a.m. Service

YAHWEH SAYS THIS DETAIL:

Can you imagine standing on the pulpit, giving Yahweh's words to the people? But what would you say? If Yahweh gave great surgings of power, what would you say to make them hear you? Would you allow the music? What would your God Yahweh have you do with an audience on a world-level platform? I would require these actions:

1. Yahweh must be welcomed into the service, not the common gathering. No famous person will be put on a pedestal and gain attention. "We welcome You, Yahweh. Please dwell in our midst and make Your place here. Great Holy Spirit, please bring truth through the words." Next.
2. I would bring a new service format forward. No plan will come and call sinners as children of Yahweh. A service should open with a Gospel message, with worship songs given to Yahweh. And a presentation of what King Jesus came to do must be the focus. Man should not be the focus of the service. Having prayer lead but lacking the hearing of what salvation is will still have a room full of sinful ways. Yes, and go and bring encouragement, but also tell them what I came to set them free from. They must have an awareness of their sinful nature and how there is now reconciliation between God and man through God King Jesus. Next.
3. I would let those who are anointed have a leading in every aspect of worship. I would not pick singers with only singing skills who don't know how to engage Yahweh. When did the presence of God take over? Only when I gave you your work impartation at the marking of the non-famous singer. Picking worship leaders solely due to singing or playing skills will not cause you to enter or bring the

presence in a tangible placement. Do not have cheerleaders lead worship. Have worshippers lead. And what of his way? Next.

4. I see how he still deals with insecurity. The lead pastor has a gentle temperament, but he fears telling the people how to be set free from sinful living. He tells them to come to Me, but he doesn't say why I am the only Way, the Truth, and the Life. I wanted Lakewood, not for its visible size, but for the man who leads it would be able to enter. His Mercy gift, as I would call him in similar ways to David of old, would have the potential to enter the Holy of Holies with preparation and removal of others who are poison to him. He would have to surrender fully to the way Yahweh leads and sever associations with the ones who bring dishonor to the name of King Jesus. There would be an actual breaking, a breakthrough that will turn Houston. But would a well-known preacher heed the words of a hidden prophet? No. So what I will do is bring a release to your work sphere, displaying the way of power out through wisdom, reformation governing, through messages, and back them with My tangible power.

So, let's begin. I know there are those who would think you favor Lakewood for not slamming them with the regular things we hear others speak. But what I say, you will state. And what I can see within the words that do not honor Yahweh is a crack in the walls, where I see a teachable man who can be turned. And I look for vessels, those who can let Me in.
