

# NEW DEMON ENGAGEMENT

## **SEERSGATE:**

It is late, and I cannot sleep. I like going to bed late or getting up early, doing whatever schedule my Yahweh gives. But I recently put my extra bedroom in another space. I'll call it space # 3, and I hate being in there. There is something about the bedroom. I hate going in there in the day and the night.

Right now, I am typing on my laptop, as Yahweh says to follow Him on finding out what is keeping me from going to bed. Right now, while sitting in the living room, I dread thinking about all the activities that took way in the dwelling before we moved in. I gave Yahweh my office space, and I loved when I had my cot in there to write and enter private meetings with Him. But using the spare bedroom is causing me to feel anxious.

My husband says not to worry about dealing with all the ways of engagement and come to bed, but as Yahweh takes away the veil, my prophet ways are now picking up every form of spirit entering the dwelling. I thought I closed off all doorways, and I have my Angelic Guard of forty angels always with me. How can that level of protection not be enough? Did I let a spiritual doorway become compromised?

## **YAHWEH:**

Servant, Yahweh is with you. You do not need to fear what you cannot have a full seeing of, but you must be made fully aware that you deal with very terrible-looking spirit beings. These Christians think that being a true Christian means that a demon would never bother them. But your case is a little different. We make you deal with demons. We purposely

send them to your dwelling. We build your ways of spirit engagement to make you aware of what the crowd deals with.

When you go near a person who has a demon influence, your God Yahweh will show you where to enter a way of territorial positioning with that person. These humans give ways to be a host for spirits that can persuade them to be and act a certain way. There cannot be a weak place in your training. Look at what weaknesses brought down My other servants. Look at why Yahweh trains prophets. And here, these church gatherings fake prophet activations with non-prophet-called lay members, hoping to make them think I will give them power.

Do not grow weary in training. There cannot be a prophet who is never in training. Even a released prophet needs to deal with a new level or assignment, and there must be continual heart evaluations to bring a way of clarity to what is within. You sought Us to see if there is something you are doing wrong, but no, We are letting witches and warlocks visit you, again, just as was done in that former training. And your spirit is picking up what is going on around you.

There is nothing you can do to stop this plan. I am preparing you for when we move into the house in the late winter. I will send a demon each day while you sit at your desk in your home office. And this demon will materialize and will appear in daylight to engage you. And when the demon is clearly visible, your armor-bearer angel and the Healing angel will also appear. You will be greatly encouraged that both evil and good are clearly represented.

This will be a very hard season, and I will make sure you can handle what is given when I send them. The demon will cause you great pain. These demons will have the enablement to throw you and scrape you with their sharp nails. You are aware of this. They will throw you in the air up high and against walls. I will let the engagement take way so you will not have a fear of any demon. You are to take more pictures. You gave

the people photos of the early demon engagement, but this way is another level. And you will be healed well each session.

You had an apostle speak in My name, stating that you are a deliverer of the people. What kind of deliverer would not be aware of the battlefield? Bring a way of deliverance from the old way. And what is that old way? Relying on each other and pretending that there is no Yahweh is the major root problem. Bring a real Kingdom demonstration to the world.

Can you share this prayer with those dealing with doorways they actually opened to Satan and the demons that are now tormenting them?

## THE PRAYER

*Great Yahweh, King of the universe, I humble myself in Your great presence. Please cleanse me. Wash me in the blood of King Jesus. Break the old way of sinful dealings; bring me into Your care and covering. I yield to Kingdom order, Great Yahweh. I surrender my plan and yield to Your way of doing how I live. Please bring a cleansing into my body, soul, and spirit. Please cleanse the dwelling that I am using. Please cover the entrance with protection using the way You govern. I am Yours and will no longer look at or engage in perversion, immoral or demonic acts through actual seeing in person, television, or media. I yield to godly living Your way. Thank You for Your protection and the salvation covenant, what King Jesus did so that I would be healed and delivered in You. Amen.*
