

# TERRITORIAL: A LESSON ON FAMILIAR SPIRITS

## YAHWEH SAYS:

You were shown the **familiar spirit** that is in your family heritage in the spirit realm. They are in naïve ways about the spirit nature that surrounds them and doesn't want to think that angels aren't the plan that may surround them.

Your mother prayed for angels to surround her, and then she said she saw a person leave out of her dwelling. Then a person who counsels her said that the spirit she saw had to be an angel just based on how she was praying for protection.

Let's bring this way of false security to a halt right at this very moment. Her natural mentors are not trained in spiritual encounters like the way that I have trained you in "spirit" matters. They are blind to the spirit realm and would blindly assume that all spirits gathered around Christians are of Yahweh.

I just gave you a very accurate view of the spirit that left her dwelling. It was not a godly representation. It was not an angel of Yahweh. It was a demon that followed the family line that was attached to your mom's mother. That spirit is looking to join in covenant ways with another in the family.

Where did I show where the demon was in your territory? Outside, near your backyard on the patio, watching your activity from outside. Why is that demon outside and not coming in and out of your dwelling? You were under a covenant in the past to have this demon come and torment your way, but We broke the covenant with a prayer that will give your direct descendants freedom from torment.

Guess what will now happen? With those who are not cleansed from this connection in natural ways with spiritual cleansing, if they are a direct joining under your mother, they will have visits from this demon that comes and appears as a dead relative. And they will

have torment just as the dead grandmother once did. Tell them. Say the view that was given in a dream.

### **SUSANNA HAS A WILL FROM YAHWEH:**

The spirit realm is now being revealed to me on another level, where, with the seeing of the spirits that are present, they look as a natural way. They look fleshly. The spirit realm is now taking on natural presentation, where I am enabled to look at the spirit realm and see facial details of angels and demons of all ranks and granted authority.

With the vision of the night, I clearly saw the face of the demon that stood outside the house patio door. I had a clear view of the face that was a human way but had very dark circles for the eyes and had circles only of dark ways. There was a strong resemblance to the grandmother's dead husband, who tormented her and showed her that way of presentation often. Others have seen the way the demon comes—referring to the way of this demon to a person's line in an exclusive manner.

It was clear why the demon stood outside. And it should be clear that they can know where you work and where you go to church and run out tasks each day. Why could the demon stand on the patio and not enter the house? Isn't the patio also a part of the house territory? It would have been if I didn't relinquish that area to the next-door neighbor who was constantly taking leverage over the land we were renting.

Let me give a sharing of what took way: There is a small land area located between the two townhouses. There is no natural divider that would tell where one boundary ends and the next one begins.

With that problem of not being able to view the natural territorial boundary, we were looked upon in poor ways by the wife who came over and told us that cigarettes were left in the grass, harming her dog, when we both did not smoke. Others may have, but it is our rented temporary land, and her complaint came against this landowner.

Her husband volunteered to cut all of the grass—both parts. Since they were continually having their kids and dog on both parts of the land, it was a wise plan to relinquish the little slit of land that divided both houses. We did not want to deal with an unwanted entity coming into our territory in repeated ways. If they owned the land, they felt they had the power to lord over another who they knew were just leasing the near land joined in location.

I will say it clearly. I told Yahweh that since I did not buy the house, and since we were only staying for a short time, I did not care about giving up that land surrounding the actual house. And in the spirit realm, I saw Yahweh place a spiritual hedge of protection just around the land and house boundary. And the hedge looks like a natural fence but a white outline instead.

The outline of spiritual protection no longer covers our backyard or the little land space of a few yards on one side of the house. It is literally the driveway and the house that is joined under territorial blood; apart from when we walk out and enjoy the natural surroundings, this covering will extend and give protection. And that is the reason why the demon stood on the outside yet was still on the property of the natural dwelling.

### **YAHWEH SAYS:**

And now can you see it, servant? Can you see that it needs to be pushed into natural ways—your future? Who can you seek in counsel? Who has made raising the dead as second nature? Is there anybody else who has your heart for the Seersgate work? Is there anyone else with your work?

What is now needed? The fullness of natural time. What is the needed step? Presentation. Is it time to walk forward into purpose? Who can tell? I would have to bring the glory level forward. I would have to start transferring spiritual glory into the earth where the people can see it.

I poured out the fullness of the needed glory for the next stage of work. But you still look the old power way. We need you to turn into the way of presentation. I need your spirit to also detox. I need a warrior who can go forward into the world and not fear an encounter with the spirit realm.

How do you learn My work? I give you experiential training. You need to have a training that is a power-filled level. Not just books, not just seminary, and not just waiting on someone else—it's now given to invoke Yahweh.

What is a seer? You can see in the spirit realm and bring a will from Yahweh, in prayer form, to have a territory built that will bring Heavenly influences into natural outlets. I give you My power. I give you the next level of work. Power, not money, is the way to build up Our Kingdom work. You are ready. Being able to see that demon activated Stage Three. I showed you where I want to train you in this next level of work.

How are the world leaders going to know that this world work is of Yahweh? I would have to tell them. The dam is getting ready to crumble. The spiritual dam is coming to an end. And you will become a way of mentorship with the whole world when I give photos of natural ways that reflect what is there in the spirit realm. Where will you go and hide when I share with the world what angels and demons look like?

It will happen, where you go and pray that I raise Paul Walker, Myles Munroe, and Prince from the dead, and you will witness sample resurrections. No digging up of dead people. No faking burial resurrections. No cutting your flesh for My attention. Clean hands and a pure heart will be the needed catalyst to have a close way with Me. What do you bring? It is clear. You are fully yielded to My will of going without various junk indefinitely. You yield to Me.

Begin your work, and I will let you build the major world platform with great waves of the glory of God taking over all that is given. We will never let you falter. It is moving forward. The work is given. I place My seal upon your forehead in a new level power way. And no one can put an end to a real work of the Great I AM.
