

AUTHORITY GIVEN

Dealing with Demon Influences - Part One

WHO IS A TRUE BELIEVER IN CHRIST?

One should never go to war against any demon influence without the leading of the Great Holy Spirit. There is a great misunderstanding concerning dealing with demons due to the person's views from a movie or a TV program.

But what should a true believer in God do when faced with dealing with demon influences? First, the believer should know of their place in the Kingdom of God. They should know there is authority given to them due to being spiritually connected to King Jesus through the Great Holy Spirit.

A true believer is a person who has been born again, where they have received King Jesus into their soul and heart. That gives them eternal life. This is true Christianity: relationship with King Jesus. And this is more than going to a church building. This is truly drinking from the Great King in all within and loving Him by doing whatever He would bring you to do.

AUTHORITY GIVEN TO THE BELIEVER THROUGH SPIRITUAL DRINKING

Now that we made it known what a true believer in Christ is, let's move to discuss the authority given to the believer. They say, "We are given a purpose to do the will of God," yet they look to their way to know what needs to be done. They would rather move in doing the will of those they admire based on that person's success in that work field.

But if the people truly see that they have their own field to win for King Jesus, they will not try to copy the work given to another human. They would start listening to what

the Great Holy Spirit would say to know how to fight a spiritual war in the plan given to them to drink.

*The word **drinking** refers to waiting on the leading of the Great Holy Spirit. It refers to seeking the counsel of the Great King Jesus before doing your own way. It is learning to move with the Great Leader in all that is done. Most will not seek the wisdom and counsel of the Great Holy Spirit for various reasons. Some think He is not here, but the Great Holy Spirit is in each and every true believer in Christ Jesus.*

Not only is He in the believer, the Great Holy Spirit moves to do the will of the Great Jehovah God throughout the earth. This is very important to note. Why? Because you have with you the wisdom and counsel of the Creator of all things, moving in the earth, never too far if you would just seek Him. This is drinking King Jesus. This is not the way most would live due to not being able to see Him. They prefer to win the human approval instead of learning to move with the approval of the Great King Jesus.

Spiritual drinking is key to knowing what will to do when dealing with demons.

Let's start with the authority given from the drinking. All believers have certain benefits and blessings connected to being given eternal life. They have life itself through King Jesus, where their spirit is alive in Christ. There is a plan for each to embrace the plan given by the Great Holy Spirit, to win a great harvest in the earth for King Jesus.

The Great Commission is an order for the Church to take up, but most think it is just a duty for a few missionaries in a remote location in a foreign nation. How far from the truth this really is. The nations include all nations. The mandate is given to all believers to work in their spiritual fields. Some fields include the home, workplace, or grocery store. You may even have a duty to preach to the atheist or the Satan worshipper or visit the prisons or the shelters.

The believer needs to know the field in which they are assigned to work in God's Kingdom. They can look to counsel from others, as the Lord leads, but it is still the Great Moving known as the Great I AM who should have the final say in their work given to do for the King.

It is a Kingdom that the believer belongs to, and the King is the Lord Jesus. His will is the law to embrace in all dealings, for He is the Highest Authority. No other earthly leader you have to submit to is to move into the position of King Jesus.

There is to be only one God, and it must always be King Jesus. We must submit to Kingdom order. Human leaders are given into authority, but when they tell you to sin, which will separate you from the Great King Jesus, you must choose to serve the Lord, even if killed for your allegiance.

The authority that the believer drinks come through King Jesus. That is why you must make sure you stay connected to Him through relationship. Works will not save you. Doing rituals will not give you a deep relationship with God. What is Yahweh looking for? Those who have clean hands and a pure heart. He wants the people to worship Him in spirit and in truth. This form of worship will require a spiritual connection, not one of rituals.

How does this help us understand how to deal with demons? You must have a clear connection with the Great Holy Spirit to drink God's will to know what to do. The spiritual connection must be there to drink this authority in the Great King Jesus; this is what you must never forget.

The demons look to see if you have the authority to make them submit to the words you speak. If there is no connection in the spirit to King Jesus, you will have no authority.

Now here is where the people must see that there could be a connection in the spirit due to a covenant established between a person, ministry, nation, or kingdom. They may have a covenant that would enable them to drink different movings from the Great King Jesus. But note that they may not be in good standing with the Great King Jesus.

A covenant is not a way to gauge your relationship with Yahweh. Yahweh has removed different people from different ministries and levels of anointing due to sin or breaking the covenant or order given to drink by the Great King Jesus. There were those who moved in the gifts and the calling given to walk in and then took a standing against the Great King Jesus.

Yahweh has to keep His covenant with that person, ministry, nation, and so forth until He moves it to another who will do the will of the King. The gifts and different movings of the Great Holy Spirit in your life are not to be the gauge of your relationship with King Jesus. Be rooted in the King through spiritual connection through the Great Holy Spirit.

Now that I have noted where you receive the authority, it should be noted that the name given to move into this position in the Kingdom is to be used: King Jesus. No other name is greater than the name *Jesus*. It is the name and what takes place when using the authority that stems from the will in place given to those who have a true connection with the Great King Jesus.

Once you learn of your field to work in, and once you learn the authority given to you as a believer in King Jesus, you will begin to see that no force or plan would be greater in strength and power.

King Jesus created all that is seen as well as what is not. So since He created the world and the heavens, He would move in a place of the Greatest Authority. This means that even the demons have to submit to the Great King Jesus.

Remember, demons were not always in this state of nature, as they were angels who stood in the great presence of the Great Jehovah. But they remain as demons who serve Satan due to rebellion against the Great I AM.

Now, one must see that the demons must submit to King Jesus. As a believer, you are given authority in the name of King Jesus.

LEVELS OF DEMON INFLUENCES

There are different levels of demon influences. You must know that the demons move to have their own structure, with Satan as their leader. They have demons who rule over other demons. You have to know which demon is moving in that person, place, object, nation, territory, and situation, in general.

Never assume to know based on what is being done in the natural; this refers to sin or manifestations. Ask the Great Holy Spirit what is being carried out in the unseen realm to know what will need to be declared or enforced in that place or territory.

Now, some will get ambitious and think they can take on any demon that moves against them. But one must know that there are also different levels of authority in the unseen way. There are different levels to demons, and so, one must know if they have been given the authority from the Great King Jesus to war against that spirit.

If they go to war against a demon without the level of authority to command it to submit, they will walk into a way where they would be weakened to the place where they would be subdued, destroyed, or they would fall away due to thinking that their God has abandoned them.

Some demons will not leave unless they are faced with an authority who moves in fasting and praying in the power of the Great I AM.

There are ways to engage demon influences. The best way is to wait on the Great Holy Spirit and drink His wisdom so that He can show you weaknesses in the way you move. Without His leading, it would be as if you are walking in a place with land mines while wearing a blindfold.

One must not use natural ways to gauge the demon influences. You will know the true motive for why they are moving in that detail through seeking the will of the Great Holy Spirit. This way of being Spirit-led is difficult if you would not take a moment each day to seek Him.

To know the voice of the Great Holy Spirit would require learning to hear Him. One must learn the art of listening with your spiritual ears. This is very important in dealing with demons. Demons talk in the spirit realm, not in the natural way as a human would. They are made up of a material known as *spirit*.

Your spirit part can also hear the voice of the Great Holy Spirit. Since you hear the Lord's voice with your spirit, understand that you can also hear a demon speak to you. Now would be a good time to know the voice of the Great Holy Spirit, so you will know when He is speaking.

You cannot effectively fight against a demon if you are looking for a physical manifestation. You must know the voice of the Living God. You must drink His Spirit and wait on the Great Holy Spirit to show you what is taking place in the unseen realm.

Ministry is viewed as a cookie-cutter method. People think that if they deal with a demon one way, then that is the method of dealing with all. This is not the case, for those who should move to deal with demons should know that there could be different ways for demons to enter the person, object, nation, etc.

People don't think that a demon could receive permission to enter a place or person, but they can get the permission based on the will given to the one who leads over that

particular “land.” The human is also land, for the person comes from the earth. This is the way that Yahweh formed the human named Adam, the first created in the natural, from the dust of the earth.

From this first Adam, all come into the world through this human way of flesh from the earth. And due to sin, this first person caused us to move into being born in sin, where we need to be born again so we could be reconciled to Yahweh.

This is the reason for the new birth: It is to redeem us back to the Great Moving known as Yahweh so we could be in fellowship with Him.

ENTRYWAYS TO DEMONS

Your body, made from the earth, can become a home for demons to live in. You must know of entryways that demons move to come in through. They are as follows: the ear gates, the eye gates, and through sexual sin. They can enter through oaths given by a person who once ruled over you.

Demons could have access brought on from generational curses or sins and diseases. They could come to do a connection with another through soul ties that are not sexual. They may have a territorial legal right due to who once owned the land you live on. They move to come to live in your household pets or even gifts with an occultic dealing connected to various forms of the dark arts.

You may have an item—including a movie, a book, a CD, or anything with material dealings to carry the demon influence—which would open a door for a demon to enter you and your house. You may even have given a demon permission to enter through playing what you would note as a harmless game, such as anything that deals with conjuring demons, the dead, or any form of divination.

You may open the door to demons by reading horoscopes, getting your future read, watching satanic movies and ceremonies. You may enter a detail in binding yourself through dabbling in same-sex relations, orgies, or sex with animals.

You may open yourself to demon influences by opening your mind through New Age, where you do the practices of yoga and finding your center. Your mind should not be filled with thoughts of leaving your body under witchcraft dealings. Be careful of such practices.

Know that all it takes to receive a demon from a person is by physical touch. Just laying your hands on a person will open yourself to a demon if you do not know what is truly within them. If you have others lay their hands on you, you must know the plan to move in based on the leading of the Great Holy Spirit.

Do not look at how that person moves in the gifts or speaks in unknown tongues to be your gauge. In the will you drink, you will receive whatever is within the person who lays their hands on you. Know this: This is a **law of transferment**, where you will receive the spirit within that person who moves to touch you.

Spirits can be given and received even through shaking hands with a person. Most meet people with a spiritual connection, and the person may sense that connection even without any physical contact. But imagine what takes place where there is a physical touch with the human. There will be a moving to transfer within.

This is the same moving that took place with the woman who moved to touch King Jesus with her hand. She moved to touch Him, and He noticed virtue was released from within, and it went into the woman. She touched His clothing, but there was a transferring of what King Jesus was filled with, and it went into this woman, where she was healed of her issue of blood.

Imagine how the apostles were: Just from a shadow, healing came. Just a transferment of the anointing into a piece of clothing would be enough to heal the sick or cast out a demon. No need to do delivering ministry based on what you think. The Great Holy Spirit knows the name and the motive for why a demon would have a way to enter in the first place. Now you have a better way of knowing the overall movings of ways demon influences will enter through permission.

WHAT WOULD KEEP YOU SAFE?

First, know that there is only one God, and He doesn't want you to be destroyed or defeated by demons. Now, there are cases where He will send a torturer if you choose not to release others through forgiveness. Yahweh will send a torturer to put you in the place where you would release details in your soul and heart, to move forward in Him.

Yahweh may do this, where He would bring an evil spirit, to bring a level of torment, as with the first king over Israel named Saul. But look at the person named Saul and his way of rebellion to the Great King. What about the messenger of Satan sent to deal with Paul? That was from the Lord.

Now you see why you must know the motive for the demon being there in the first place.

The only One who would truly be able to see the full way for any demon manifestation is the Great Holy Spirit. He sees the full way, where we as humans will only see a glimpse—just enough based on what will we drink. Get insight as the Lord would bring. He even knows who should work with you in doing any delivering ministry or dealings with demons on any level.

Don't go by the person's plans, their position, their rank, or human title. What is known of that person in the spirit realm? Do they have any authority in the spirit way? Do the

demons move to submit to the person based on the given authority through King Jesus, or is the person lacking authority and power?

While in any deliverance ministry, people will pretend to be someone else. They may keep accounts of sinful actions from your knowledge, and the only way to know what's really going on is to speak with the Great Holy Spirit while in the deliverance session.

There is no need to look for a different place to pray. Don't be afraid to speak with the Great Holy Spirit with others around and your eyes open. Don't let anything keep you from hearing the will of the Great Holy Spirit in that critical moment. Be led by the Spirit of God.

Demons do not just come to bars and strip clubs. Demons are in the churches, the synagogues, the malls, the hospitals, and people's homes. Demons are in the streets, the shelters, wherever they can find a host. Demons want to cause the least disturbance due to not wanting to be expelled. Just be prepared to engage a demon in any situation but wait for direction from the Great Holy Spirit before moving forward into any deliverance session.

Many Christians are filled with demons, but they don't know who to tell. They think that there could be no way for the person who has received King Jesus to have a demon, but this is how many are kept ignorant.

A demon will move to dwell in a person's body—the flesh. The Great Holy Spirit dwells in the person's spirit. These are two separate territories. One must know what permitted that demon to enter them in the first place so that the blood of King Jesus will seal the door to the enemy.

Many think that a person has to be evil in the way they live to have a demon take residence within them, but this is not so. Demons may move to come in through a hurtful dealing, where you were abused or abandoned. For others, you may have given

a demon permission to enter due to hate or bitterness within you. What about fear or other movings of emotion? These dealings make a way for a demon to move into living within you.

You must know what the Word of God says for yourself. Don't gauge what the people would say just by their testimony. When dealing with others in deliverance ministry, know that there may be a demon and understand what gave that demon a way to enter in the first place. There may be a need for that person to receive emotional healing (therapy, releasing of pain) due to an area of hurt or woundedness within. And then the way to bring deliverance from demon influences (expelling demons) could occur. The root of what is bringing on the battle warfare must be dealt with first.

All would need to know the true root of the situation taking place, for some would say a demon is dealing with that person when there is no demon. Many untrained ministers bring on spiritual abuse by trying to expel a demon that isn't even there. Some ministries want the "thrill" of dealing with demons.

Some want to appear more spiritual, so they pretend to operate in deliverance ministry when they are causing more significant harm to that person. There must be a gauge to any ministry, where people move into drinking insight from the Great Holy Spirit before offering or receiving deliverance sessions to keep a believer safe.

WHAT TO SAY TO DEMONS

Now let's say you have to deal with a demon. What is the first thing to do? In your spirit, ask the Great Holy Spirit what to say to get the demon influence to leave. He may say to speak to it in this way: "Demon (list it based on what the Great Holy Spirit names the demon), in the name of Jesus Christ, I command you to go where King Jesus would send you." This saying is the fundamental way to make a demon leave you. Now, what if the demon says "No"? Then go and ask the Great Holy Spirit what to say the next time. He may tell you to speak in this way: "Demon of (name), by the

authority given to me by the Great King Jesus: go where He would send you.” And if the demon says it has been given permission to be there, God will reveal it by the way the Great Holy Spirit speaks.

The Great Holy Spirit gives the ultimate Truth when dealing with demons. All you have to do, ultimately, is pray to Yahweh for deliverance. Cry out and say, “Please deliver me, King Jesus! I need Your blood to set me free!” And Yahweh will do what He sees is better.

There was a time when I spoke to a demon, telling it to leave the place I was living in, and the response I heard was: he had a way to enter due to a door being opened. So, I asked the Great Holy Spirit what to speak due to this spiritual door opened at the will of the Great King Jesus. Here is how we dealt with this demon: We placed a seal of the blood of King Jesus in the room where I slept.

And the angels who protect me were sent to move to the post to keep the demon at bay. I could not get the demon to leave the dwelling due to the door opened by King Jesus Himself to train me in dealing with the demon, but I didn’t want it any closer; so, we placed a seal of the blood of King Jesus in the room, to at least keep the demon in the other places.

Now some would think this is so weird to deal with demons in this way. Know that the unseen way is very real. You are just used to living in an earthly human way. But once you learn the reality of Kingdom living given for you to drink before death, you will see the purpose of moving in the supernatural, to take care of those details that have to be dealt with, with spiritual tools.

Yes, the Great Holy Spirit gives us tools to use to fight in a spiritual war of any level. You must ask Him what you have been given so you will know what to do and who moves against you. For example, if you have been given a task to deal with drug

dealers, then you would need to know what is needed to wage war against demons that move in that plan.

What about the spirit of religion? The religious spirit is heavy in the churches today. This religious spirit is what King Jesus dealt with even in those who were in the religious circles of the day and viewed by the people as being in the authority of the Great I AM.

Even people that move to do Kingdom work could have a religious spirit. The religious spirit would keep a person in a ritual or under a certain way of trying to reach God through what they have done, while in that person's heart, there is no moving for change through the Great Holy Spirit.

Even those who move in the prophetic gift can have a demon of religion due to thinking that only the way they have seen Yahweh move in their services is the only way that works.

It is very critical to have a real connection with King Jesus. If you know of any detail within that would keep you from reaching a deeper filling of the Great Spirit of the Living God, go to King Jesus and release these issues from within. Take your issues to Him, and ask Him to show you what is causing a demon to move against you.

We know that the enemy is geared to move against the saints. At the same time, look to the Great Holy Spirit to see if any spiritual doors need to be closed. Look to the Great I AM's wisdom to know of any connections in the spirit realm that need to be broken or shattered, cut, and so on.

Ask Yahweh to show you what sins you have joined in with—others or nations—that need to be released from your spirit. Ask the Great Holy Spirit to bring a deep moving within you to push you to embrace His full way. To embrace Yahweh's will takes yielding the will you would walk in.

There is much more to discuss on this subject. We will move in stages in other areas when dealing with demon influences. Out of all that was said, I hope you see that you must know Yahweh's voice to listen and follow His leading to be effective in any dealing with a demon. Go and do the work of the Kingdom of the Great King Jesus, but do not go without the Helper, the Great Holy Spirit. Until next time.
