

# BESTIALITY

## SEERSGATE SAYS:

What exactly is bestiality? It's when a human has sexual encounters with an animal. What kind of attention would a human crave to have sexual encounters with an animal? What will draw a person into releasing their sexual cravings into a beast that cannot have a way to join them in the married way? Who gave any human permission to make them take their judgments and twisted sexual behavior to pursue them? I will make it plain that God I AM is not pleased with it—the joining of a human under sexual release with an animal.

They can say it feels good; would that make it an acceptable add-on to the pleasures you experience?

“They have the organs needed for enjoyment, so why keep me from that added pleasure?”

That's what a person under heavy bondage would wonder. But I have experiential proof from others taking that into their planning way. In my old ways under sin, I watched movies of humans engaging in sex with animals. I have heard the stories of how others have given their bodies over to unnatural ways of sexual favors. And I suffered with spiritual chains around my way of living.

Learning of others in their ways of sexual plans also builds up shame in your body for battles of sexual lust. Once the cravings lead in your body, you will open the doorway for greater wanting to sleep with other animals or more demeaning ways in spiritual filth. Yahweh did not intend for humans to have sex with any animal, for God made us in His image. And we should walk in unity with Yahweh's Spirit.

What will sex with an animal bring? Sex with an animal will bring various levels of demon influences. When you sync with an animal, you will take on major demon manifestations within your body. There are spiritual doorways that open when partaking in this sin, and demons will begin to influence the ones who watch this way of pornography. Both watching and engaging are doorways that will permit demons to enter you at will and bring torment within.

The only way to be released from torment and the chains of pornography would be to close all open spiritual doors with cleansing in King Jesus's blood by asking Yahweh to set you free. You must renounce the sin and never give a place to Satan by being involved again.

Also, note that sex with an animal will also bring many diseases and unclean details through this form of engagement. Sex with an animal brings natural connections that yoke you. Under a prison, you will build a bridge with others. You will not be able to see enjoyment only through the natural form of sex with a human until that bondage comes off your body. Being set free will take Yahweh, the powerful God who brings that healing from the infestation and yields spiritual release deep within.

Bestiality will lead to other forms of sexual sin. And with each layer of involvement, your way will turn over into more ways of seeing, from a demonic placing through demonic levels of lust-filled behavior. And your natural way of engaging others will have a stench from spiritual demonic drinking. Your sin will surface due to unclean spirits manifesting through your lifestyle.

Come and drink from King Jesus. Tell Him how you have taken a turn within to sin in your body, which is meant to be holy only unto the Lord, the Great King Jesus. Through the blood of Christ, Yahweh can release and break off the former way.

By cleaning your body, soul, and spirit, you will come under Yahweh's way of protection, staying in the Lord's camp by the power of the Great Way King Jesus, free from torment from the chains.

### **KING JESUS GIVES HIS WILL:**

No one must watch such movies that contain this deadly spiritual sin. It starts with soft porn and builds into lust-filled acts that take on bodily shifts under various levels of demon influences. Stay a holy way. Separate from unclean power living under sin. Confess your lust-filled ways. I will come and cleanse you.

### **SEERSGATE:**

Confess to Yahweh. You tell Him. He will bring the power.
