

# **SICK BECAUSE OF LACK OF FAITH?**

July 5, 2011

## **SEERSGATE:**

Lord, I find myself not agreeing with everything in (John G.) Lake's book.

## **KING JESUS:**

Why is that, Susanna?

## **SEERSGATE:**

What he is saying is not the same information I hear from You, especially Your message on healing. Lake says (paraphrased) that people are sick or remain sick due to a lack of faith. Or it feels that he is also saying the level of healing comes based on the measure of the Spirit we have in our lives. I believe I don't see the Great Holy Spirit as having a measure of power within Himself, within You, Lord.

I even recall in Scripture where King Jesus laid hands on a man twice so he could see clearly and not see people as trees. I also think about in Scripture where King Jesus healed the man born blind, and it was noted that the man was born blind not because of his parents' sin or the man's sin, but so that God's glory could be seen in him.

From Lake's teachings, the impression I am getting is that if someone is sick, automatically it's the enemy when Scripture is clear that You brought on sickness to some for various reasons. That's noted throughout the Bible. I am also getting the impression that if someone doesn't get healed through prayer, then there wasn't enough faith.

I struggle with his thinking because, for one: Scripture gives examples otherwise, and two: You have taught me something so different.

## **KING JESUS:**

I wanted you to see this, Susanna. I wanted you to see this. Some time ago, you were getting uncomfortable with your reading. Did you see that, how you didn't join in with his thoughts? Oh, yes, he was zealous for Me, and he was used powerfully, but there is more: Understanding My nature and My overall plan.

You do not know My overall plan, but We trained you differently. Most are trained by human mentors or teachers; the only knowledge they have is book knowledge. It is different when you undergo training by the Holy Spirit Himself.

It is God's will to heal because God is the Healer. There are also times where I choose not to heal for various reasons. And those are mentioned throughout Scripture. You also have My message on healing.

To say someone is sick and doesn't get healed because of their lack of faith is not scriptural. It is not. In My nature, I am the Healer. But just because someone is sick or dies from sickness doesn't mean there was a lack of faith. People have to see past themselves and see My full will.

Ultimate healing is death, where you move from one realm to the next. I have power over death, so when a saint goes to Heaven, they are being moved to their ultimate state. But people don't see it like this. They would rather stay in these earthly tents. You understand the context of this because Death and Hell will be thrown into the lake of fire.

**Being in Heaven with Me is full healing.** There, no more sin, death, sorrow, or pain will ever come to that person. It is all done. This is why death is not to be feared—a person crossing over into the unseen realm, a person going home. Here on Earth, people get a taste of Heaven. The Kingdom of Heaven is within My children. It is available now,

but so many do not realize that. They settle for what they can see and fear what they cannot see. There's so much more. There's so much more.

Don't ever do that to a person, Susanna. Remember when I told you some years ago not to pray out of your flesh because you could be praying against My will? This is what it means. And yes, it is just as with Abraham when he prayed for the king and those in the land to be healed of a sickness that I brought on. That sickness was from Me to get his attention. Praying for them to get healed would have been praying against My will. Now, when the time came, I sent Abraham to pray, and he did; and at that time, I healed them, and I opened the wombs so that the women could bear children again.

Do you see this? This is why you must know the root cause of the sickness. Don't pray against My will. And this is why you must wait on Me for guidance. I will show you the root causes of sicknesses and diseases. I will show you if demons are involved or if sin is involved. I will show you so you will know the right process. This is to keep you from walking in the flesh.

I don't want you to walk in the flesh. You must walk in the Spirit, and don't allow sin ever to come in. Don't allow pity or guilt ever to come in, where you try to do things in your own strength. Know My will for that moment.

It is always My will to bring healing and wholeness because that is My nature. At the same time, you must know what is going on during those moments to cause whatever is taking place. How do you feel now after this talk? Does this clear things up?

**SEERSGATE:**

Yes, Lord. Quite a bit. I see why I must wait on You and seek Your guidance in every area.

**KING JESUS:**

Good, Susanna. Good. Continue reading that and end it for the day.

**SEERSGATE:**

Yes, Lord.
