

YOU CANNOT CHANGE A DEMON'S NATURE

September 19, 2024

3:14 p.m.

YAHWEH LEADS IT:

You look at the graphic that Yahweh states as a way to understand how demons operate. In this movie, this person lets their guard down and steps into a cage with a predator they assume to know the nature of. They come into the territory of a creature great in strength within their own rank of creatures and have hardly any predators of their own. If they were to exist in the real world, what human would be able to subdue them?

Weapons would neutralize, but would a gun strip away a predator's nature, or would it hinder its strength? It's more of a hindering or a slowing down from a full-fledged engagement. The character in the movie wanted to gain a trophy, a tooth from the predator, gave it a few doses of a sedative, but never learned of how the predator governed. He entered the cage, the territory of the predator, without understanding that the predator carried the skill level of understanding that would easily combat a human. Trained in gaming and capturing, the character in the movie failed to learn of the enemy's

way of engagement. The character gave a **COOKIE-CUTTER METHOD**, bold and caps, servant, way of engaging this predator, treating it as another regular predator with underdeveloped thinking. The character carried a cookie-cutter method of engagement with his plan.

See the way of a true Christian. When led with a false understanding, they look at all spirits in the same placing, not seeing that there are levels in the kingdom of Satan: levels of strength, power, and positions of authority.

Let Me show you how witches gain their strength. They conjure up a demon, and the demon makes promises of riches and fame; power is craved. Then the demon carries a pretend way to be "nice" to the future host, still on the outside. And then the demon offers to enter within, giving a new way to "feel the power." And when there is an opportunity to gain another level of demon infiltration, the human will take the demons from others or pass them back and forth through sexual engagement.

The demon is not put in a lowered plan just because a person quotes a Scripture to a demon. Satan quotes Scripture. Many listen to Satan in meetings through teachings with Scripture, yet they carry warped sayings with deceiving ways. The way is seen as a leading away in Christian living when whatever spirit leads within, goes and makes statements, telling others to follow lowercase gods. Even another human can make statements and say they are just like God, a clone, walking in Yahweh's "DNA," able to create just like God did.

See Satan leading in how churches go forward in doctrines of demons? See how the gentle way looks when dealing with a demon of New Age? Making yourself a lowercase god is a part of the Satan religion. What the Christian fails to see is how their inviting of the New Age way of drinking in demonic natures will kill the spiritual root, hindering how they stay connected to the Vine, King Jesus.

The demon gives a fake, lowered presentation to “marry” the person in their way of bringing joinings under a covenant. The demon looks for permission to enter, and when the human lowers their guard, the demon enters and gives a lowered way in presentation just to kill them at the real root: they enter, and they bring others in to take the place Yahweh is to carry. Who the human worships as their “god” starts to turn; there’s a chipping away at foundational doctrine and how the human serves Yahweh.

The Christian “smiles” at demons and has conversations, thinking they really have the upper hand, yet Satan lowers his way in presentation, bringing forward an “angel” demeanor to make the person think they are making a demon submit, when within the person they enter, the demon is stripping away a root joining with Yahweh.

The demon stands before you in a vision, and they say they are King Jesus. The unsaved or saved person thinks they deal with King Jesus. Are they not seeing? The gentle way of demons in their first meeting makes many people yield to the will of the spirit, giving the demon a way of a foothold.

“How do we stop this?” must be your heart’s cry. Stop it by not going by what a spirit presents itself as. Test all spirits.
